BRITAIN MOURNS AS BODIES OF TRAGEDY VICTIMS RETURNED

Many Government Officials Await Funeral Party

LONDON, Oct. 8.—Britain mourned its dead today, home from abroad.

The forty-seven coffins containing the victims of the dirigible R-101, which ended its projected flight to India in a frightful disaster on a hill three miles from Beauvais in France, were brought home aboard a cruiser and conveyed to London by special train, which slipped into Victoria station in the ghostly hours of a rainy night, awaited by thousands of sympathetic and curious who pressed against the station gates.

In the forenoon group inside the train sheds which awaited the funeral dirge were many high government officials, including Premier J. Ramsay MacDonald as well as several relatives of the dead. A guard of honor from the British air force headed by the conspicuous squad which formed the reserve crew of the R-101, paid military tribute to the mechanic and peer, the galley hand and monocular aeronautical expert lined side by side in the appalling row of caskets brought from France for burial in their homeland.

Six husky Britishers lifted the flag draped coffins from the funeral coaches and carried them slowly to the motor carriages waiting to take them to the Westminster mortuary, from which they will be removed after fulfillment of legal requirements to lie in state in centuries-old Westminster hall next to the houses of parliament until Saturday.

The task of unloading the funeral train took half an hour. Each casket was covered with flowers by members of the British air force. In the wake of the procession that moved slowly through the wet and misty London streets followed three of the seven crash survivors—J. H. Binks, A. B. Bell and H. J. Leech.

At noon Friday a memorial service will be held in St. Paul's Cathedral at which King George will be represented by the Prince of Wales. On Saturday the bodies will be taken in solemn funeral procession through the main thoroughfares of London to the train station.

After another funeral ceremony at Bedford, the forty-seven coffins will be lowered into a common grave in St. Mary's churchyard at Cardington, the British dirigible base from which the dead and the living soared away in the world's mightiest airship so hopefully Saturday only to crash on a muddy hillside of France.

MAN SAYS WIFE WAS KIDNAPED

Police Seek Pair Who Attacked Man

CLEVELAND, Oct. 8.—An intensive police search was under way here today to apprehend two men who last night attacked Harry Hunter, 24, of Akron, and abducted his wife, Irene, 24, after the couple had accepted the offer of the two men for a ride back to Akron.

Hunter told police that he and his wife had been in Cleveland looking for work and met the two strangers who offered to take them to the outskirts of Cleveland, the two men stopped the car and pulled Hunter and his wife from the rumble seat of the car, he related. They knifed him down, he said, and compelled Mrs. Hunter to drive off with them.

Hunter said he was an employee of the Goodwill Industries at Akron until several months ago. He and his wife have been hitch-hiking to other cities in search of work since, he said.

NEPHEW OF LEGUIA HAS TO QUIT SCHOOL

COLUMBUS, O., Oct. 8.—An echo of the Peru revolution was heard here today when it was learned that Alberto Leguia, a nephew of the deposed president of Peru, had withdrawn from Ohio State University, where he was studying engineering, and had started working at the state highway department offices.

The youth said that he was forced to withdraw from school because all of his family's property had been confiscated in the recent revolution. Leguia stated his father did not participate in the revolt but that his property was seized because he is a brother of the ousted president.

WILKINS TO SPEAK

BETHANY, W. Va., Oct. 8.—Captain Sir Hubert Wilkins, famous polar explorer, will speak at Bethany College here tonight on "Flying to the Ends of the Earth."

WHAT A LIFE!

CINCINNATI, O., Oct. 8.—Carl Reese, 38, today faced the prospect of working out a \$2,034 fine at the rate of \$1.50 a day.

Reese told police he sold liquor for five years and had paid "hush money" to keep out of trouble. He was returned to the workhouse after escaping while working out a fine of \$1,017.

RUNAWAY BOY IS SAFE

Leon Fugate, 14, Missing a Week Turns Up At Home Of Uncle In Quincy, Ohio

LITTLE Albert Leon Fugate, 14, is safe up at Quincy, Ohio.

This may not be news to you but a telegram bearing this information brought sighs of relief Wednesday to Mr. and Mrs. Stephen Fugate, Cincinnati Ave. and Stetson Road.

You see they are the parents of Albert Leon and for almost a week the whereabouts of Albert Leon had been almost as much a mystery as what old Jess Haines had on that ball in the Sunday world series game.

Albert Leon, a freshman at Central High School, waved goodbye to his parents at noon Thursday, October 2, and went

COMMISSION ON LAW OBSERVANCE TO MEET TO CONSIDER REPORT

Prohibition Will Be Focal Point Of Deliberations

WASHINGTON, Oct. 8.—Prohibition today promised to be the focal point of the deliberations of the Wickersham commission on law observance and enforcement, which met for the first time since June to begin consideration of its final report to congress.

Members characterized the resumed sessions as probably the most important, with discussion of prohibition occupying first place on the agenda in importance.

That considerable divergence of view has developed among the members on the question of whether the commission should make a recommendation regarding the Volstead act and the eighteenth amendment was apparent when the full commission membership gathered for today's meeting.

Although the commission's work has been to investigate every phase of law observance and enforcement, carrying its investigation into every state, prohibition, government lawlessness in enforcement, and conduct of penal institutions, probation and parole, occupied chief place.

No member of the commission would undertake to forecast what action would be taken on a demand to be made by federal Judge Kenneth Mackintosh of Seattle, a member of the commission, that the report to congress make a definite declaration on whether the Volstead act is enforceable or should be repealed.

Chairman Wickersham is generally credited with a desire to "side-step" this issue, and he is expected to find some support from among the other members of the commission. Wickersham, however, declined to commit himself on Judge Mackintosh's views.

While it is known the commission generally does not attribute all the nation's ills through lawlessness to prohibition, some members are said to feel that one of the most important phases of the whole question is lawlessness by government agents in enforcing the Volstead act.

Federal Judge William S. Kenyon of Fort Dodge, Ia., is chairman of a committee which during the summer has gathered considerable data on this phase. He said today he considered it one of the most important aspects of the entire enforcement problem.

Another phase which is considered as of prime importance is the work of the committee on penal institutions, probation and parole, headed by Judge Mackintosh.

During the summer the commission has gathered data through hundreds of experts in every state—some volunteers and others employed by the commission—covering all phases taken up by the commission's committees.

These are: causes of crime; prohibition, including the jurisdiction of the various states; crime statistics; courts, penal institutions; juvenile delinquency; prosecution; cost of crime, including the economic loss; government lawlessness; criminal justice, and the foreign born citizens' attitude toward the law.

BAVARIA SUFFERS SERIES OF QUAKES

MUNICH, Germany, Oct. 8.—A series of earthquake shocks today caused widespread alarm in southern Bavaria, bringing hundreds of thousands from their homes in terror.

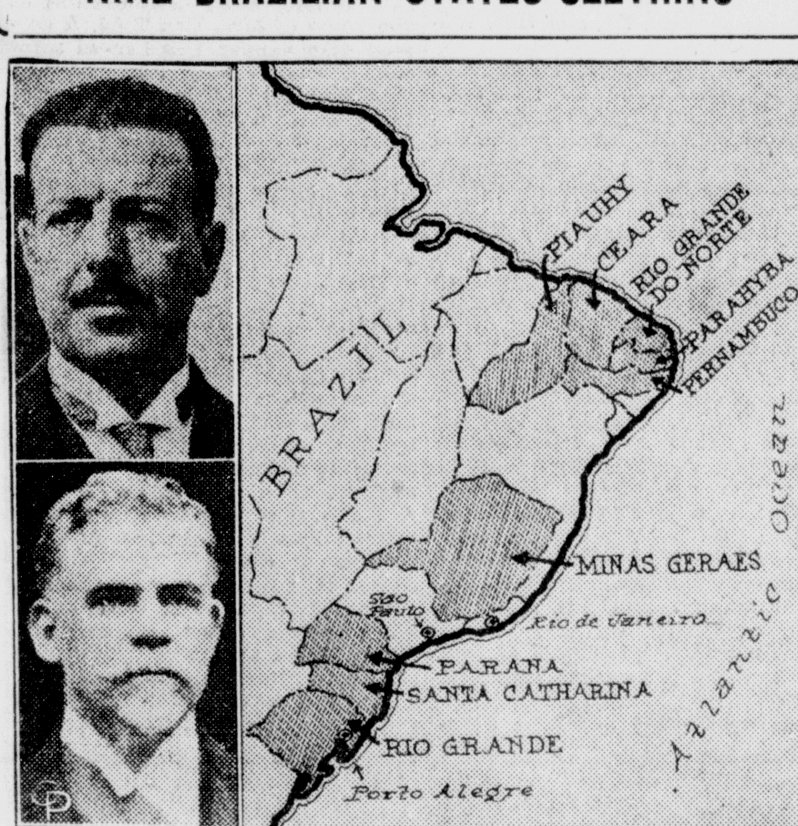

Whole crowds of men, fearing heavier shocks and subsequent collapse of buildings, camped out in the fields for the rest of the night. There was property damage.

ERECT FLAGPOLE AT OLD TOWN FOR EXERCISES ON THURSDAY

Workmen were erecting a forty-foot flagpole Wednesday at the school in Old Town, once known as Old Chillicothe, principal village of the Shawnee Indians, which will be the scene of exercises dedicating the historic marker of the Ohio Revolutionary Memorial Trails Thursday.

The flagpole is the gift of John P. Bocklet, Xenia business man. During the program Thursday a colonial thirteen-star flag, the gift of Dr. W. A. Galloway, president of the Greene County Historical Society, will be presented to Frank Wolf, chairman of the Xenia Twp. school board and will be raised on

PHILADELPHIA, Oct. 8.—The world series tourists were glad to get back to Shibe Park. They wanted to hear that graphophone again before Tom Shibe wore out the needle.

Tom is the only magnate in baseball who never hires a band. He hates bands. There is a saxophone player living in his apartment house. Before the series started Tom was thinking of getting Whiteamen. But when Paul sent in bids and specifications Tom found that the park wouldn't hold him.

Rogers Hornsby came on from Chicago for today's game in the hope of seeing George Earnshaw pitch—from a distance. And if he watches him from the press box at Shibe Park it will be from a distance. The coop here is so high the boys have to take up their own sandwiches like Lindbergh. In fact, the name of the press box is "The Spirit of Philadelphia."

FORMER UNIVERSITY TEACHER ACCUSED OF HIGHWAY ROBBERY

AKRON, O., Oct. 8.—Odus E. Long, 40, attaché of the United States internal revenue office here and former Ohio Wesleyan University instructor, was held in county jail today awaiting trial on charges of highway robbery.

Authorities claim that Long has confessed to having participated in robberies with two youths who are charged jointly with him. Long and the two youths, Earl Edwards, 18, and Owen Nease, 20, were arrested as they were riding in a stolen automobile, according to police.

"I was helping them (the two youths) to get a stake," Long is alleged to have explained to authorities. "They were going to leave."

Long said he graduated from Ohio Wesleyan in 1919 and that he

CHINESE CIVIL WAR BELIEVED NEAR END

LONDON, Oct. 8.—An abrupt end of the civil war in China appeared imminent today with Central News dispatches from Shanghai that the Nationalist troops occupied the city of Loyang after capturing the entire northern rebel force at Chengchow.

President General Chiang Kai-shek of the Nanking government has wrested the last rival stronghold from his opponents, according to the reports.

In an official statement marking the victory the general said: "The suppression of the rebellion constitutes a prelude to the foundation of permanent peace in China and the establishment of a real unity."

A large share of the Nationalists' sudden success was due to the desertion of General Chang Hsueh-Liang, Manchurian warlord, to join the Nanking government against the northern rebels.

SHIBE PARK, PHILADELPHIA, Pa., Oct. 8.—For the fourth consecutive year the American League colors float over those of the National in baseball's annual classic with the Philadelphia Athletics world's champions for the second year in succession.

Blasting out seven extra base hits, including two home runs from the bats of Al Simmons and Jimmy Dykes, and five doubles, the Mackmen won the sixth and deciding game of the 1930 series by the convincing margin of 7 to 1 over the St. Louis Cardinals here today.

George Earnshaw, the "iron man" of the series, again subdued the Red Birds and pitched shutout ball until the ninth when he weakened somewhat, the Cards escaping a whitewashing by tallying one run on High's single, a walk and chick Hafey's second double of the game. Earnshaw, who fanned six batters, had the distinction of pitching twenty-two consecutive scoreless innings against Gabby Street's outfit. He beat the Cards 6 to 1 in the second series contest, blanked them for seven innings before being removed for a pinch-hitter Monday in the fifth game and then kept them at bay for the first eight rounds today.

The A's made only seven hits, but each blow was for an extra base. "Wild Bill" Hallahan, who blanked the Athletics in the third series contest, started on the firing line for St. Louis but lived up to his reputation for wildness and was removed at the end of the second inning after the A's had scored twice in the first. Sylvester Johnson replaced him but was nicked for a run in the third, two more in the fourth and another in the fifth. Jim Lindsey was the next Cardinal hurler and yielded the last Philadelphia run in the sixth. Herman Bell ascended the mound for the Cards in the eighth and got by without being scored on.

Dykes, with a homer and double, Miller with a brace of doubles and Simmons with a home run, were the batting stars of the game. Hafey obtained two doubles for the Cards.

FIRST INNING
St. Louis—Douthitt fanned on three pitched balls. Fox took Adams' bounder on the first hop, ran over and touched first. Watkins struck out. No runs, no hits, no errors.

Philadelphia—Bishop popped to Frisch. Dykes walked. Cochrane doubled down the right field foul line, scoring Dykes, and the batter reached third when Watkins allowed the ball to sift through his legs. An error for Watkins. Simmons fanned, swinging. Jimmy Fox received a base on balls. Miller hit a two-bagger to right. Cochrane scoring and Fox taking third. Moore flied to Douthitt. Two runs, two hits, one error.

SECOND INNING
St. Louis—Simmons captured Frisch's long fly after a hard run, making the catch over his shoulder near the center field barrier. Hafey lifted a fly to Simmons. Bottomley struck out. No runs, no hits, no errors.

Philadelphia—Boley out, Gelbert to Bottomley. Earnshaw fanned. Bishop was hit on the arm by a pitched ball and ankle down to first. The runner went to second on a passed ball. For the second time Dykes walked. Cochrane fouled to Adams. No runs, no hits, no errors.

THIRD INNING
St. Louis—Dykes came in fast on Wilson's slow roller and rifled it over to first for the putout. Gelbert hoisted to Simmons on the first ball pitched. Fisher, batting for Hallahan, doubled to left. Douthitt out on a grounder. Boley to Fox. No runs, one hit, no errors.

Philadelphia—Sylvester Johnson, a big rightlander, assumed the pitching burden for the Cards. Al Simmons smacked a home run far up in the left field stands, his second circuit blow of the series. Fox popped to Frisch. Miller hit his second double to left. Moore struck out. Boley flied to Watkins. One run, two hits, no errors.

FOURTH INNING
St. Louis—Haas replaced Moore in the A's lineup, going to center

RUNAWAY BOY IS SAFE

Leon Fugate, 14, Missing a Week Turns Up At Home Of Uncle In Quincy, Ohio

LITTLE Albert Leon Fugate, 14, is safe up at Quincy, Ohio.

This may not be news to you but a telegram bearing this information brought sighs of relief Wednesday to Mr. and Mrs. Stephen Fugate, Cincinnati Ave. and Stetson Road.

You see they are the parents of Albert Leon and for almost a week the whereabouts of Albert Leon had been almost as much a mystery as what old Jess Haines had on that ball in the Sunday world series game.

Albert Leon, a freshman at Central High School, waved goodbye to his parents at noon Thursday, October 2, and went to school. But when school was over he failed to return and the papers he was supposed to pass, were not called for Thursday evening.

Alarmed, his parents began a search. J. E. Watts, juvenile court probation officer was called into the search, and state welfare department workers were pressed into service.

It was a telegram from a state officer that relieved the fears of Mr. and Mrs. Fugate Wednesday. Albert Leon is with his uncle, John Fugate, at Quincy, and its going to be very hard for Mr. and Mrs. Fugate to be so far from their running away. You see they're so glad that he is safe.

WEATHER MENACE

PHILADELPHIA, Oct. 8.—Overcast skies with a possibility of showers were predicted today by game time for the sixth contest of the world series between the Athletics and Cardinals booked for Shibe Park at 1:30 p. m.

Partly cloudy skies greeted the fans early this morning with indications completely overcast skies would soon prevail. A stiff west wind made top coats comfortable.

POLICEMAN IS SHOT BY PAIR

CINCINNATI, O., Oct. 8.—Several special police squads and detectives were searching today for two Negroes, one of whom shot and probably fatally wounded City Patrolman John Curran, 24, here last night.

Curran was taken to a hospital where an examination disclosed that the bullet entered his back and lodged near his lung. He is not expected to live.

The wounded patrolman said he stopped the two men when he noticed them following a white woman. Without warning, one of them drew a revolver and fired into Curran's back as the officer was talking to the second suspect.

ARREST SUSPECTS IN LIQUOR KILLING

COLUMBUS, O., Oct. 8.—Three suspects in the "liquor feud" murder of Carl P. Dominick, 21, former Ohio State University student, were at liberty today and police were centering their investigation around William Brannon, 21. Brannon was retained when the stories of the other three men coincided in every detail regarding the fatal shooting last Monday.

Police said that an eye-witness to the killing had offered evidence. The witness, they said, is a prominent east side woman whose name was withheld. She claims to have seen Dominick shot down from a speeding automobile shortly after he had made a delivery of several gallons of whiskey.

MAN KILLED DURING WORKERS STAMPEDE

CANTON, O., Oct. 8.—Identity of a man who died here yesterday from injuries received when he was thrown to the pavement in a human stampede on the steps of the employment office of the International Steel Co., was being sought by city officials today.

Several hundred men gathered at the office late yesterday when it was announced that the company planned to clean the plant so that it could begin operations soon. In the general rush as the doors of the employment office opened, the man was thrown to the pavement. He died a short time later from a fractured skull and other injuries, physicians said.

OHIOAN DISAPPEARS

MANSFIELD, O., Oct. 8.—Chas. Poullison, 37, of this city, disappeared July 18 while visiting in Chicago. It was learned today through relatives of the man.

Poullison carried \$200, which he had received for work he had done on the lake steamer J. J. Sullivan.

BOSTON ASTOUNDED AS LEGION MEMBERS HOLD GAY CARNIVAL

Dignity Of Old City Shocked By Merry-Makers

BOSTON, Oct. 8.—Whoopie! Old dame Boston looked down at her mantle of conservatism today and found it badly mussed. The "old girl" was somewhat disheveled after coming through a hilarious carnival that followed in the wake of the "big parade" of the American Legion.

Throughout the night and into the morning, jolly, friendly swirling throngs clogged the streets.

A total of 103 persons were in police toils charged with intoxication, hospitals recorded eighty persons recovering from the consequences of the Mardi Gras spirit. Fourteen pickpockets were under arrest.

Much property damage was done by a crowd of hoodlums who engaged in an orgy of vandalism. Automobiles on the streets were overturned or bounced until the springs cracked. Windows were broken.

Scores of bonfires were started in the streets from the debris of the parade. Smoldering paper and wood were thrown into automobiles. There was a wild melee around a downtown hotel, the scene of a near riot the previous morning. Attackers on the hotel were driven back and doused by bags of water from above. Crap games were staged on historic Boston Common and in hotel lobbies.

Canes brought by the legionnaires sent all Boston into a "cane complex." Some cane carriers selected a person without a cane, elbowed the curved end about his neck and yanked him to the ground.

The climax of the night and morning of hilarity was reached when a small toy automobile was driven into the lobby of a hotel, placed aboard an elevator and driven about various floors much to the amazement of hotel guests, who, jumping from their beds and opening their doors, discovered an automobile passing in the corridor outside.

BROWN AND BOARD TO PROBE PERJURY

COLUMBUS, O., Oct. 8.—Members of the Franklin County board of elections were scheduled to appear before Secretary of State Clarence J. Brown here today for a consultation regarding alleged perjured registrations in the county.

It was said that Secretary Brown has obtained evidence that persons have been registered as disabled voters, when, as a matter of fact, they are not disabled.

ERECT FLAGPOLE AT OLD TOWN FOR EXERCISES ON THURSDAY

Workmen were erecting a forty-foot flagpole Wednesday at the school in Old Town, once known as Old Chillicothe, principal village of the Shawnee Indians, which will be the scene of exercises dedicating the historic marker of the Ohio Revolutionary Memorial Trails Thursday.

The flagpole is the gift of John P. Bocklet, Xenia business man. During the program Thursday a colonial thirteen-star flag, the gift of Dr. W. A. Galloway, president of the Greene County Historical Society, will be presented to Frank Wolf, chairman of the Xenia Twp. school board and will be raised on the flag pole with military honors by the officers of the O. S. and S. W. O. Home Cadet Battalion.

W. O. Jeffries and Son, Xenia contractors, are erecting a platform at the school, which will be used for the program there Thursday, making this a contribution to the program and R. M. Neel, undertaker, will furnish chairs. The Xenia committee appointed for that purpose is expected to escort Governor Cooper and his staff and the Ohio Revolutionary Memorial Trails Committee from Lebanon to Old Town, where a program will be held at 1:15 p. m., dedicating the new trails marker placed there.

MAN WOUNDED AFTER ALLEGED FIST BOUT IN OSBORN TUESDAY

Victim Removed To Hospital; Pistol Wielder Not Held

Osborn and Fairfield authorities are investigating the shooting of Ralph Yates, 23, boarder in the home of Mr. and Mrs. Hurlus Lung, Ohio Ave., Fairfield, who was removed to Miami Valley Hospital, Dayton, Tuesday night after being treated for bullet wounds by Dr. T. W. Winans, Fairfield.

Yates was shot once in the right ear, the wound being minor and his right arm was shattered by another bullet. Lung, 30, is said to have admitted to authorities that he did the shooting following a quarrel that began in their home and ended outside in front of the house.

No charges have been filed against Lung and he has not been arrested. Lung is said to have told authorities that after the quarrel started he invited Yates outside to "have it out." He said Yates had him down beating him when he pulled a .32 calibre automatic pistol from his pocket and shot twice. Formal charges may not result from the shooting authorities indicated Wednesday.

SHIBE PARK, PHILADELPHIA, Pa., Oct. 8.—For the fourth consecutive year the American League colors float over those of the National in baseball's annual classic with the Philadelphia Athletics world's champions for the second year in succession.

Blasting out seven extra base hits, including two home runs from the bats of Al Simmons and Jimmy Dykes, and five doubles, the Mackmen won the sixth and deciding game of the 1930 series by the convincing margin of 7 to 1 over the St. Louis Cardinals here today.

George Earnshaw, the "iron man" of the series, again subdued the Red Birds and pitched shutout ball until the ninth when he weakened somewhat, the Cards escaping a whitewashing by tallying one run on High's single, a walk and Chick Hafey's second double of the game.

Earnshaw, who fanned six batters, had the distinction of pitching twenty-two consecutive scoreless innings against Gaby Street's outfit. He beat the Cards 6 to 1 in the second series contest, blanked them for seven innings before being removed for a pinch-hitter Monday in the fifth game and then kept them at bay for the first eight rounds today.

The A's made only seven hits, but each blow was for an extra base. "Wild Bill" Hallahan, who blanked the Athletics in the third series contest, started on the firing line for St. Louis but lived up to his reputation for wildness and was removed at the end of the second inning after the A's had scored twice in the first. Sylvester Johnson replaced him but was nicked for a run in the third, two more in the fourth and another in the fifth. Jim Lindsey was the next Cardinal hurler and yielded the last Philadelphia run in the sixth. Herman Bell ascended the mound for the Cards in the eighth and got by without being scored on.

Dykes, with a homer and double, Miller with a brace of doubles and Simmons with a home run, were the batting stars of the game. Hafey obtained two doubles for the Cards.

St. Louis—Douthit fanned on three pitched balls. Foxx took Adams' bounce on the first pop, ran over and touched first. Watkins struck out. No runs, no hits, no errors.

Philadelphia—Bishop popped to Frisch. Dykes walked. Cochrane doubled down the right field foul line, scoring Dykes, and the batter reached third when Watkins allowed the ball to sift through his legs. An error for Watkins. Simmons fanned, swinging. Jimmy Foxx received a base on balls. Miller hit a two-bagger to right. Cochrane scoring and Foxx taking third. Moore flied to Douthit. Two runs, two hits, one error.

St. Louis—Simmons captured Frisch's long fly after a hard run, making the catch over his shoulder near the center field barrier. Hafey lifted a fly to Simmons. Bottomley struck out. No runs, no hits, no errors.

Philadelphia—Boley out, Gelbert to Bottomley. Earnshaw fanned. Bishop was hit on the arm by a pitched ball and the right field foul line, scoring Dykes, and the batter reached third when Watkins allowed the ball to sift through his legs. An error for Watkins. Simmons fanned, swinging. Jimmy Foxx received a base on balls. Miller hit a two-bagger to right. Cochrane scoring and Foxx taking third. Moore flied to Douthit. Two runs, two hits, one error.

St. Louis—Dykes came in fast on Wilson's slow roller and rifed it over to first for the putout. Gelbert hoisted to Simmons on the first ball pitched. Fisher, batting for Hallahan, doubled to left. Douthit out on a grounder. Boley to Foxx. No runs, one hit, no errors.

Philadelphia—Sylvester Johnson, a big right-hander, assumed the pitching burden for the Cards. Al Simmons smacked a home run far up in the left field stands, his second circuit blow of the series. Foxx popped to Frisch. Miller hit his second double to left. Moore struck out. Boley flied to Watkins. One run, two hits, no errors.

St. Louis—Hafey replaced Moore in the A's lineup, going to center field while Simmons moved over to his accustomed position in left. Adams fanned. Watkins popped to Dykes. Frisch singled to left. somewhat, the Cards escaping a whitewashing by tallying one run on High's single, a walk and Chick Hafey's second double of the game.

Dykes hit a home run, the ball barely clearing the left field barrier. Bishop came in ahead of him. Frisch made a diving stab of Cochrane's terrific liner dug the ball out of the dirt and got his man at first. Simmons out, Adams to Bottomley. Two runs, one hit, no errors.

St. Louis—Bottomley out on a bouncer. Bishop to Foxx. Wilson struck out. Gelbert drove a fly to short center. No runs, no hits, no errors.

Philadelphia—Foxx doubled, Frisch deflecting the ball slightly as he made a dive for it. Miller sacrificed. Foxx moving to third on the hunt, which was flied by Bottomley and tossed to Frisch, who covered first. Haas sent a sacrifice fly to Douthit. Foxx mooching home after the catch. Boley raised a fly to Watkins. One run, one hit, no errors.

St. Louis—Blades, pinch-hitting for Johnson, struck out. Cochrane snared Douthit's high foul fly. Andy High, pinch-hitter extra-innary, batted for Adams and drove a hard liner to Earnshaw, who made a fine stop and retired him at first. No runs, no hits, no errors.

Philadelphia—Jim Lindsey is now the Cardinal pitcher with High taking Adams' place at third. Earnshaw sent a lazy fly to Hafey. Bishop drew a pass. Dykes doubled to left center, driving Bishop around to third. Cochrane lined out. Frisch scored from third after the sacrifice. Dykes held second. Simmons flied out to Watkins. One run, one hit, no errors.

St. Louis—Watkins out on a grounder. Bishop to Foxx. Earnshaw made a great stop of Frisch's hard shot and got the Fordham Flash at first. Chick Hafey doubled to left. Bottomley walked, the first pass issued by Earnshaw. Wilson fouled out to Cochrane. No runs, one hit, no errors.

Philadelphia—Foxx went out on a fly to deep center. Wilson captured Miller's foul fly up against the box seats. Haas out, Lindsey to Bottomley. No runs, no hits, no errors.

St. Louis—Gelbert bunted along the first base line and Foxx fielded it squarely on the bag. Orsatti, batting for Lindsey, drove a hard bouncer to Foxx, who made a marvelous stop back of the bag, ran over and made the putout. Douthit out, Boley to Foxx. No runs, no hits, no errors.

Philadelphia—Herman Bell was introduced as the fourth Cardinal pitcher of the game. Boley out, Gelbert to Bottomley. Cheered wildly as he came to bat, Earnshaw flied to Douthit. Bishop bunted in front of the plate and was thrown out, Bell to Bottomley. No runs, no hits, no errors.

St. Louis—Hafey was held to a single on his drive down the right field foul line. Watkins walked on four straight balls. High advancing to second. Frisch hit a liner to Foxx, who speared the ball with one hand and stepped on first, doubling up Watkins. Hafey doubled off the left field wall, scoring High. Bottomley walked, Wilson flied out to Miller, ending the game and series. One run, two hits, no errors.

PAUL FULLER NEW COMMANDER OF AMERICAN LEGION POST HERE

Paul Fuller, Thornhill Ave., for the last two years service officer of Joseph P. Foody Post of the American Legion, was elected commander of the post to serve for the next year at the regular meeting in the Court House Tuesday night. Commander Fuller's selection to lead the post in 1930-31 came as a recognition of the signal service that he has rendered to ex-servicemen during the last two years.

Other officers elected and installed were: Dr. Herbert Dershem, O. S. and S. O. Home, vice-commander; Dr. Ben R. McClellan, chaplain, re-elected; Walter Townsend, adjutant; Raymond G. Stutsman, finance officer, re-elected. Members of the executive committee elected are Dr. H. C. Messenger, Mrs. Pearl Wittenmyer, Joseph Fealy, Guy McCoy, and George Sugen. Past Commander Harry M. Smith becomes a member of the new executive committee automatically, although he also was elected to the office by vote of the membership.

Naming of appointive officers was delayed by Commander Fuller until the November meeting. The part the Legion post is to have in the dedication of the new armory on Armistice Day was discussed after Captain O. H. Cornell told of plans made to date. It was decided that decision as to the part the Legion will play would be left to the newly elected executive committee which will meet on call of Commander Fuller to organize within the near future.

PAUL FULLER

Plans discussed and tentatively arranged include the official observance of Armistice Day in the morning with the two minute silence at 11 a. m.; the dedication proper in the afternoon, at which state officials will turn the armory over to the American Legion for dedication purposes; acceptance of the armory in behalf of the citizens of Greene County by the Legion spokesman and presentation of the new building to the National Guard Company, whose home it will become. Dr. Ben R. McClellan was mentioned as the probable official representative of the Legion at the dedication ceremony. A banquet at the Elks Club and a military ball in the evening are to conclude the first days festivities. Nearly a full week of activities has

been tentatively arranged centering around the new building, including a fall festival to be sponsored by merchants of Xenia, Captain Cornwell announced.

Complete details of the program will be announced immediately after the meeting of the executive committee of the Legion, which Captain Cornwell will attend, it was stated.

Routine business occupied the remainder of the Tuesday night Legion session and adjournment was taken until November 4, the next regular meeting night.

Poems that Live

THE PILLAR OF THE CLOUD
LEAD, kindly Light, amid the
encircling gloom,
Lead Thou me on!

The night is dark, and I am far
from home—
Lead Thou me on!
Keep Thou my feet; I do not ask
to see

The distant scene—one step
enough for me.

I was not ever thus, nor prayed
that Thou
Shouldst lead me on:
I loved to choose and see my
path; but now

Lead Thou me on!
I loved the garish day, and, in
spite of fears,
Pride ruled my will: remember
not past years.

So long Thy power hath blessed
me, sure it still
Will lead me on,
O'er moor and fen, o'er crag and
torrent, till

The night is gone,
And with the morn those angel
faces smile
Which I have loved long since,

And lost awhile.

Special Agent To Address Knights

Eighteen members of 4-H Clubs in Greene County, accompanied by their leaders, County Agent E. A. Drake and C. H. Ervin, of the Ervin Milling Co. here, are in Cincinnati Wednesday on a visit as the guests of the Ubiko Milling Co. They planned to visit the Union stockyards and also inspect the Kahn packing plant, the Ubiko plant and other places of interest. The boys were served lunch at noon at the Ubiko plant.

SPECIAL AGENT TO ADDRESS KNIGHTS

Henry W. Johnson, Grand Rapids, Mich., special agent of the Supreme Council, national organization of the Knights of Columbus, will address local members of the order at a meeting at 8 o'clock Wednesday night at the K. and C. Hall.

Plans will also be perfected for a proposed annual Columbus Day dinner and program to be sponsored by the Knights of Columbus here next Monday evening. It is announced.

XENIAN WINS CUP

W. R. Bennington, district manager of the Mutual Life Insurance Co., of New York for Greene County, was awarded a silver loving cup at the annual convention of the Cincinnati agency held last Friday at the Cincinnati Club. This cup was awarded to the agent sending in the most applications during a contest held in August by the Cincinnati agency. The Cincinnati agency consists of twenty-seven counties of southern Ohio, northern Kentucky and southeast Indiana.

XENIAN TAKES OVER CAMP, OIL STATION

Announcement was made Wednesday by Howard E. Luck, this city, employee of The Dayton Power and Light Co., that he has leased the filling station and tourist camp, owned by D. E. Bailey, Jamestown, and located on state route 11, half a mile east of Jamestown at the forks of the Jeffersonville and Washington C. H. Pike.

His brother, Clarence H. Luck, will be in charge of the station, which will handle a complete line of Sinclair products. It is Mr. Luck's intention to serve light lunches and cater to reservations for chicken and steak dinners. Later on, perhaps, he will put in a barbecue stand, he announces. Free picnic and camping ground is also available for the accommodation of tourists.

MEETING OPENS

CINCINNATI, O., Oct. 8.—Hundreds of delegates were here for the opening today of the national jubilee convention of the Women's Home Missionary Society of the Methodist Episcopal Church.

The opening feature on the program is a pilgrimage to Trinity Methodist Church, where the society was organized fifty years ago.

BIBLE THOUGHT FOR TODAY

GAMBLING AT THE CROSS—And they crucified Jesus, and parted his garments, casting lots: that it might be fulfilled which was spoken by the prophet, They parted my garments among them, and upon my vesture did they cast lots.—Matthew 27:35.

WHAT DICTATORS CAN DO

Some of the European countries are getting quite remarkable things done, for the time being at least, through the rule of dictators. Their governments have fallen into the hands of men of powerful personality, who make the whole people toe the mark, and threaten them with dire penalties if they oppose the government.

Scarcely anyone would claim that the United States should do any such thing. Yet sometimes it is claimed that the United States should imitate ideas held in these dictator ruled countries. Some people will say, for instance, that the Russian ideas of socialism and communism are producing certain results which can not be gained in this country, when these results are not due to the merits of socialism, but to the exercise of dictatorial power which can get things done in a hurry.

In a free country people have an almost unlimited capacity for doing foolish things. They are constantly refusing to co-operate with the efforts that they should assist, they throw obstacles in the way of useful policies. A dictator of high intelligence and noble aims might make a great improvement in the country in a few years.

And yet the American people will never stand for the rule of any such despotic system. They know too well its fatal dangers. No one man, or small group of people, is wise enough or good enough or fair enough to rule a whole nation. And they know that once such a power was established, it would fall into the hands of selfish and tyrannical persons.

Our people would infinitely prefer to put up with the slow progress of democracy, with all its faults and failures, than to establish anything like the one man power which many countries are living under, and in which the basic principles of liberty are denied.

CUBAN AFFAIRS

Washington has interpreted its position and responsibilities under the Platt amendment in accordance with fact, by announcing that there is no reason at present for American interference in Cuban affairs. The existing situation in the island republic is not covered by that interesting provision of its constitution.

According to the Platt amendment, "the government of Cuba consents that the government of the United States may exercise the right to intervene for the preservation of Cuban independence, or for the maintenance of a government adequate for the protection of life, property and individual liberty." The Cuban government has, upon the request of President Machado, temporarily suspended the "constitutional guarantees," corresponding roughly to the bill of rights in the American constitution, and this gives Mr. Machado dictatorial powers, which he may exercise as he sees fit, either in Havana exclusively, or in the island at large, until the date for the national elections arrives. But it is not evident that either independence or stable government is in danger as a result.

What may happen later on, naturally is another matter. Both the prospect for the future and the motive for the suspension of the constitutional guarantees are viewed variously by the islanders. Supporters of the Machado regime insist that the action taken is necessary to ensure an orderly ballot on November 1, and to prevent serious disorders that might lead to intervention. Enemies of the executive regime insist that Machado is resorting to a favorite device of Latin-American presidents who desire to establish autocratic dictatorships, and that the authorization extended by congress means an "indefinite postponement" of the scheduled elections and a consequent indefinite extension of the Machado tenure.

Machado by his conduct shortly will either confirm or refute the charges of his foes. Meanwhile it is sufficiently clear that for some reason or other, probably chiefly because of economic conditions, there is a great deal of unrest in parts of Cuba which needs regulation by a strong hand if duplication of the troubles of several of the South American countries is to be avoided, and a condition which will necessitate American interference prevented.

STANDARDIZATION

Factory production, made enormous by constantly improved machinery, has its effect on the human being. Watch an astonishing machine and see it turn out thousands of articles per hour, every one exactly like every other. There is something fascinating in watching the never-ending stream. No change, no variety, all alike. And this age tends to make human beings alike. It is the age of standardization and classification. It takes more nervous energy and more courage than we have to hold out against the call to sameness. If we find we are doing the same thing in the same way that our neighbor is doing, it gives us a feeling of comfort and satisfaction. If we find we think differently and do differently, we are likely to worry about it. Human beings have to be careful or they will be fed into the machines which they have made.

NATURE'S MISTAKE?

When the British scientist, Harrison, declares that Nature, when she let man evolve, made a mistake, we are momentarily shocked. He says Nature overshot the mark. She produced a cunning, big-brained animal and yet didn't make him wise enough to know what to do with himself. Something in that. On further thought we are less shocked, more interested. Dr. Harrison thinks that from what we know of the brain many thousands of years ago, if the same man were living today he might become a skilled mechanic, a good bishop, an able statesman.

BILLBOARDS

The rank and file of us will rise and clap our hands for Colonel Fred Greene, superintendent of public works in New York. He built a lattice work to screen a billboard from the public view near a bridge over the Hudson river. Now he has to fight in court because the billboard people didn't like it. Several hundred folks who crave a bit of country view will be backing Colonel Greene in spirit.

Whoever got the idea this country ought to be hidden behind a billboard?

FLAT FEET

A New York doctor says women get flat feet from riding in automobiles. What they need is the natural use of the foot. Many of us get the notion that by saving a muscle or a talent we improve it. We rest our feet and they are not as healthy as the feet of people who walk. We rest our brains, but they don't improve with rest. They wear out. We rest our muscles, but they are not as healthy as the muscles of people who work. We rest our impulse to be kind. We do not become more kind; we become hard. Faculties grow by use—not by overuse, but by reasonable use.

How many acres do the following cities cover: New York, Chicago, Los Angeles, Paris, London and Berlin?

The acreage of the following cities is: New York, 191,360 acres; Chicago, 134,726 acres; Los Angeles, 282,424 acres; Paris, 19,278 acres; London, 74,850 acres; Berlin, 216,891 acres.

Radio

By whom was the radio invented? When?

Radio traces its descent directly to the theoretical work of James Clerk Maxwell, who in 1865 made the declaration that visible light consists of electric waves in the ether. In 1887 Heinrich Hertz of Germany gave experimental proof of the existence of these electrical waves. Between the years 1894 and 1896 Guglielmo Marconi of Italy initiated his experiments on the coherer. Other improvements followed, but in 1906 the outstanding invention of the entire history of radio, the thermionic vacuum tube, was invented by Lee De Forest.

What is the length and breadth in miles of Lake Michigan?

The length of Lake Michigan is 307 miles and the breadth is 118 miles.

Presidential Succession

Can the secretary of state, a foreign born, become president of the United States if both the president and vice president die?

No, the secretary of state, if not a natural born citizen, cannot become president if both the president and vice president die. In the constitution, article 2, section 1, it is provided that "no person except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States. In case of the removal of the president from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the vice president, and the congress may by law provide for the case of removal, death, resignation, or inability, both of the president and vice president, declaring what officer shall then act as president, and such officer shall act accordingly until the disability be removed or a president shall be elected." Thus congress could not appoint the secretary of state to the presidency if he was foreign born.

German Reich

How many states comprise the present German Reich?

There are 41 states in the German Reich.

Bo-Broadway

By JOSEPH VAN RAALTE

NEW YORK CITY, N. Y.—A newspaper man had occasion to question a Park Avenue Pompadour recently. He was unable to pass the doorman at the sumptuous apartment house and so contented himself on the sidewalk until the Great Man appeared for his daily "outing" between the doorway of his home and the step of his limousine.

Intercepted by the reporter, he stopped in his tracks, and said: "Do you know me, fellow?" "No," replied the reporter. "Should I?"

Another William Tell Act That Is Being Watched With Interest

WASHINGTON DISPLAYS INTEREST IN APPROACHING INVESTIGATION OF BISHOP CANNON BY HIS ELDERS

CHARLES P. STEWART

WASHINGTON.—Investigation by the college of bishops of the Methodist Episcopal Church South of charges against Bishop James Cannon, Jr., is looked forward to in Washington with about the same degree of interest that the capital might reasonably be expected to feel in impending impeachment proceedings against (say) a justice of the supreme court of the United States.

Perhaps, parenthetically, it should be emphasized that an impeachment is not equivalent to a removal from office, as many folk suppose; it is only an accusation.

This is just the position in which Bishop Cannon finds himself—accused.

How much importance the country at large attaches to the complaint concerning him, filed by the Rev. Dr. Forrest J. Prettyman of Baltimore, Costen J. Harrell and J. T. Marston of Richmond, and I. P. Martin of Abingdon (Va.), I have no means of estimating. Washington, however, seems to me to rate it as something less than the consequence of a hearing involving the possibility of a president's removal, but as of decidedly more significance than one with no higher secular post than a senator's at stake.

Church folk, I imagine, will point out that such a comparison tends to assume a political angle in connection with a case about which there is nothing political whatever, but the fact is that Washingtonians do assume it.

In a way, they have their reasons for doing so. It must be remembered that Bishop Cannon is as well known here as if he were a Washingtonian himself, though his legal residence is in Virginia, and his best friends do not dispute that he has been politically very active—the essential difference between his friends and his accusers being that the former insist he has been no more active than any citizen has a right to be, while his accusers maintain that he has overdone it, among various other things. Anyhow, political "repercussions" (as statesmen express themselves) from the investigation of his record are strongly probable, in one direction or another.

The impression appears to be quite general that the bishop was tried at his church's general conference in Dallas last May, and acquitted, and that the present proceedings are in the nature of placing him a second time in jeopardy. This is a misunderstanding, according to Dr. Prettyman of Baltimore, one of the complainants. What really happened, it seems, was that the bishop's stock market transactions with the New York brokerage firm of Kable & Co. were called in question, whereupon the bishop expressed his deep regret for these dealings but explained that he had regarded them as legitimate investments—an explanation accepted by the conference, which accordingly voted not to try him.

Drs. Prettyman, Harrell, Marston and Martin now represent that they have fresh evidence, of a sort at least requiring still more explanations. They likewise raise the old issue of the bishop's exercise of political influence, concerning which he not only never has been tried but refused even to explain, when called as a witness before the senate lobby investigating committee last summer.

And finally there are charges based on "personal conduct." As to what these may be one per-

son's guess is as good as another's. They evidently do not relate to the bishop's conduct as a market trader or as a politician, for his trading and his politics are listed separately; plainly they deal with some line of conduct in a distinct category.

Whatever may be the ideas of Drs. Harrell, Marston and Martin. Dr. Prettyman has made it clear what he considers ought to follow. In the event that the Methodist Episcopal Church South sustains the latest accusations against Bishop Cannon.

A culprit who is sincerely repentant should be forgiven, he says, but he argues that the best evidence of sincerity is a willingness to submit to a suitable penalty for transgression.

In brief, he suggests punishment, should the bishop be found culpable.

Rather less than two years ago Bishop Cannon had the look of a man who was exceedingly well able to take care of himself in almost any controversy. I can hardly imagine anyone then feeling that it would be a hopeful task to advise him to resign, as his fellow clerical, Bishop Horace M. Dubose of Nashville has done since the launching of the Prettyman-Harrell-Marston-Martin complaint against him.

He is not tall and his figure is slight. His face is merely average.

Nevertheless, glancing at him twice, one sensed exceptional vigor in his personality. He had confidence, poise and he spoke with energy and pungency—obviously

WHAT THE PRINCESS FORGOT TO REMEMBER

The poor little Princess had no sooner gotten used to Busy than it came time for Busy to leave. "Here comes Nurse!" said Busy to the Princess. "My, my, won't she be surprised to find what a good girl you are! I dare say she has some delicious sweet milk for your supper."

At the cheering news that it was meal time, the Princess brightened up, and suddenly she smiled at the boy in that odd way all Ants have. "Why, the Princess really is good looking, after all," thought Peter, who, until that moment had considered the Princess very homely. Indeed—which goes to prove what a smile will do, even for an Ant.

"It's the strangest thing, but I am sure I know exactly what that milk is going to taste like," murmured the Princess. "It will be cool and refreshing. Why I should know I'm sure I can't guess. I've only just come into the world, haven't I?"

Busy nodded, then chuckled. "You've just entered the world as a full-fledged Ant, to be sure, Princess dear, but before your cocoon days you were a little larva. And as a larva, my, what a lot of milk you drank. It was hard work trying to supply you with enough to fill your little tummy."

Princess blinked. She was trying hard to remember something she had almost forgotten. "Long before I spun myself a silken cocoon and curled up in it and went to sleep I was a funny little thing without legs, wasn't I?"

Of late, however, he has aged, and rapidly.

Before the senate lobby committee a few months ago, he said only what he chose to say, to be sure, but he did it without his one-time defiant manner. The fire was gone from his eyes. His voice was tired.

Probably he cared very little for his senatorial inquiries, but he was just back from the ordeal with his own church folk at Dallas, and his own church folk at Dallas, and that it may be, had been a more trying experience for him. I judged that he might have enjoyed telling a senate committee where to "get off" if he had been in the top form, but he appeared to lack the spirit to make much of the opportunity.

Doubtless he still has the fighting instinct, but all the indications are that the joy of battle has gone out of him.

HOUSEHOLD HINTS

MENU HINT

Cream of Tomato Soup Crackers
Pigs in Blankets
Candied Sweet Potatoes
Buttered Beets Pineapple Salad
Lemon Pie Coffee Milk
Use the commercially canned tomato soup, adding the amount of water directed to thin. Just before serving add one small can of evaporated milk to the soup and serve.

Today's Recipes

Pigs in Blanket—Two slices pork steak, one pound bacon, pepper. Have the pork cut into strips about one inch wide and two inches long. Around this wrap a slice of bacon and hold in place with two or three toothpicks. Season with pepper, but no salt. Bake one and one-half hours in a moderate oven, 350 degrees, the last half hour remove roaster lid.

Suggestions

Preventing Water Hammer—If you let steam full force into a cold radiator it condenses rapidly when it comes into contact with the cold metal parts or the cold water already in the radiator. When suddenly condensed at atmospheric pressure, steam occupies only 1-1600 of its original volume, so that a vacuum is formed in the remaining space, creating severe concussions as the bodies of water come together. This force or shock slams the water against bends, closed valves, the end of a pipe, etc., and if allowed to go unchecked causes leaky joints, loosens threads and may even fracture the solid pipes themselves.

Water hammer usually can be prevented if the steam is let into the radiator slowly. Open your valve for a moment, allowing some steam to enter the radiator, and then shut it off until the steam has partially heated the metal parts of the radiator. Then repeat this operation until the radiator is brought up to a higher temperature. After the radiator has become reasonably well heated, you can let the steam in at top pressure with no danger of further disturbance.

Doctor Uses 500 Words on Peanuts

By LOGAN CLENDENING, M. D.

A magazine editor once told me that Mr. Irving Cobb, the distinguished champion of the American pronunciation of the word "d-e-r-b-y," and master of other forms of beautiful letters, being in a mood of black despair at the thought of his dreadful craft, announced that he could write 10,000 words about a peanut. I shall here attempt only 500.

It would, however, be very easy to write 10,000 words on the peanut. Mr. Cobb probably did not realize how intricate a subject he had chosen. In case you don't know, you may be interested in the way a peanut grows. It is an annual plant, and as soon as the petals of the flower fall off the peduncle bends down and buries itself in the ground. The fruit, or pod, develops underground like a tuber. In some places it is called earth nut, or ground nut.

It belongs to the legume family, and is therefore related to the bean. Probably its native habitat was Brazil, but it was introduced into the old world soon after the conquest of South America, and now is grown in most warm countries. In the United States the greatest crop is grown in Virginia, North Carolina, Georgia and Tennessee.

As a food article it is magnificent. The vegetarians would have to go out of business if it were not for the nuts. (No double meaning is intended there). Nuts contain concentrated amounts of vegetable protein and fat.

Look, for instance, at the peanut. The edible portion has:
Protein 25 per cent
Fat 38 per cent
Carbohydrate 24 per cent
Eighteen grams will produce 100 calories, as against the 232 grams of pineapple required to produce the same amount.
There are nearly 2,500 calories per pound of peanuts.

Of the vitamin content, I have no record. But I would suspect that on account of the fat content there are vitamins A and D present.

When it comes to digestion and absorption, however, nuts do not fare so well. Unless thoroughly chewed so that a good deal of their juice is swallowed, not very much of the substance is digested in the human digestive tract. Since they are poorly digested, much of their heavy nutritive load is wasted.

Hiding, Crying Unloved Girl's Fate

By MRS. VIRGINIA LEE

"Dear Virginia Lee: Your column means life sermons and does more good than anything I know. I am going to tell of an experience that will be a lesson both to wives and home wreckers.

"A couple I knew lived devoted to one another until a silly little girl threw herself at the husband. He fell and she became a part of his life. His wife found it out and instead of making a scene and losing her husband, whom she loved and could not live without, she kept the girl—who was 10 years younger than she—in her home and pretended to be dumb and blind.

"I asked her how she could stand it. She said if she kept her husband and that was less a heartache than to give him up altogether. The other day he died, leaving a large estate and life insurance to his wife. She took his body to the old home and mourned his loss in widow's weeds, while the girl could not show her grief openly, but had to hide away and cry unloved and alone.

"She has wasted her youth and is without a home. Surely she has paid the price. Is it worth it? "An Admirer of your Column."

Thank you, dear Admirer. I never pays for one woman to rob another of her husband. No matter how innocently one becomes involved in such a love affair, the happy ending is, in the end, the happier thing to do, is to put it from one. Such affairs cause endless heartache for all concerned.

And the transgressor is always the one to suffer most in the end. I wonder if your friend tried to help the girl to mend her broken life. She must be a wonderful woman to survive the almost impossible situation created by taking her husband's innamorata into her home.

Dear Virginia Lee: Thank you kindly for your answer to my last letter. As you may recall, I am the girl who had met a 'perfect boy' and didn't realize how lucky I was. This is what I've done about it.

"I gave him up. Am I sorry? Not at all. And I don't suppose I shall be.

"Do you know, Miss Lee, that it seems to be a characteristic of our family not to marry young. I have two sisters at home. One is 30 and the other just past 30. They are both enjoying themselves immensely and both have had numerous proposals of marriage.

Another has always told us, 'Children, don't rush into marriage, because you'll be married long.' say.

Slight Down Had Better Be Ignored

By GLADYS GLAD

Many women exaggerate the importance of the slight down on their faces. They become almost frantic at the appearance of the finest bit of hair and recklessly undergo operations that often result in a heavier and darker growth or in irreparable damage to the skin.

Let no one persuade you to submit to modified X-ray treatment for the removal of superfluous hair. The X-ray machine is too powerful an instrument to be toyed with inexpertly. The method is unsuccessful, for it is impossible to determine the accurate dosage to harmlessly remove the hair. If the X-ray application is not of sufficient strength, the hair will be removed only temporarily. If it is too strong the hair will be permanently removed but the skin will be greatly endangered.

Legitimate X-ray practitioners contend that no possible modification of the X-ray machine could permanently destroy hair without also destroying the surrounding skin. It is logical to suppose that treatments strong enough to kill the hairs will also be strong enough to mar the skin. When the specialized tissue is destroyed the skin acquires an odd "dead" appearance. It becomes hard and puckered, and in some instances, gives every evidence of a skin cancer.

This is not mere supposition. There are a number of women who have undergone modified X-ray treatments and who are now wallowing in their rash action. Every one of them would much rather

have the hair back again than the obviously damaged skin that resulted from the hair removal. If you have only a light down on your face, keep away from any form of hair remover, whether it be temporary or permanent. In nine cases out of ten the hair is not as noticeable and not as disfiguring as you think it is.

ANSWERS TO QUERIES

Eyelashes

Betty B.: The application of vaseline to the lashes will promote their growth. However, do not expect results after only a short period of time. Straight hair can be trained to retain a wave.

Reduce Bust

A. A. and Mrs. Smith: It is impossible for me to print my method of reducing the bust in this brief space. However, the method is fully described in my booklet on "The New Figure."

Cold Cream

Dot: I think that a good brand of cold cream is far more beneficial to the skin than the preparation you mention.

EDITOR'S NOTE: While it is impossible for Miss Glad to answer beauty questions by mail, she will be happy to send you her pamphlets on "The New Figure" and "Beauty Culture" if you will write her, care of this paper, enclosing a self-addressed, stamped envelope and 10 cents in coin, for each, to cover cost of printing and mailing. Personal questions on beauty will be answered through Miss Glad's daily column.

BIBLE THOUGHT FOR TODAY

GAMBLING AT THE CROSS—And they crucified Jesus, and parted his garments, casting lots: that it might be fulfilled which was spoken by the prophet, They parted my garments among them, and upon my vesture did they cast lots.—Matthew 27:35.

WHAT DICTATORS CAN DO

Some of the European countries are getting quite remarkable things done, for the time being at least, through the rule of dictators. Their governments have fallen into the hands of men of powerful personality, who make the whole people toe the mark, and threaten them with dire penalties if they oppose the government.

Scarcely anyone would claim that the United States should do any such thing. Yet sometimes it is claimed that the United States should imitate ideas held in these dictator ruled countries. Some people will say, for instance, that the Russian ideas of socialism and communism are producing certain results which can not be gained in this country, when these results are not due to the merits of socialism, but to the exercise of dictatorial power which can get things done in a hurry.

In a free country people have an almost unlimited capacity for doing foolish things. They are constantly refusing to co-operate with the efforts that they should assist, they throw obstacles in the way of useful policies. A dictator of high intelligence and noble aims might make a great improvement in the country in a few years.

And yet the American people will never stand for the rule of any such despotic system. They know too well its fatal dangers. No one man, or small group of people, is wise enough or good enough or fair enough to rule a whole nation. And they know that once such a power was established, it would fall into the hands of selfish and tyrannical persons.

Our people would infinitely prefer to put up with the slow progress of democracy, with all its faults and failures, than to establish anything like the one man power which many countries are living under, and in which the basic principles of liberty are denied.

CUBAN AFFAIRS

Washington has interpreted its position and responsibilities under the Platt amendment in accordance with fact, by announcing that there is no reason at present for American interference in Cuban affairs. The existing situation in the island republic is not covered by that interesting provision of its constitution.

According to the Platt amendment, "the government of Cuba consents that the government of the United States may exercise the right to intervene for the preservation of Cuban independence," or for "the maintenance of a government adequate for the protection of life, property and individual liberty." The Cuban government has, upon the request of President Machado, temporarily suspended the "constitutional guarantees," corresponding roughly to the bill of rights in the American constitution, and this gives Mr. Machado dictatorial powers, which he may exercise as he sees fit, either in Havana exclusively, or in the island at large, until the date for the national elections arrives. But it is not evident that either independence or stable government is in danger as a result.

What may happen later on, naturally is another matter. Both the prospect for the future and the motive for the suspension of the constitutional guarantees are viewed variously by the islanders. Supporters of the Machado regime insist that the action taken is necessary to ensure an orderly ballot on November 1, and to prevent serious disorders that might lead to intervention. Enemies of the executive regime insist that Machado is resorting to a favorite device of Latin-American presidents who desire to establish autocratic dictatorships, and that the authorization extended by congress means an "indefinite postponement" of the scheduled elections and a consequent indefinite extension of the Machado tenure.

Machado by his conduct shortly will either confirm or refute the charges of his foes. Meanwhile it is sufficiently clear that for some reason or other, probably chiefly because of economic conditions, there is a great deal of unrest in parts of Cuba which needs regulation by a strong hand if duplication of the troubles of several of the South American countries is to be avoided, and a condition which will necessitate American interference prevented.

The WAY of the WORLD

STANDARDIZATION

Factory production, made enormous by constantly improved machinery, has its effect on the human being. Watch an astonishing machine and see it turn out thousands of articles per hour, every one exactly like every other. There is something fascinating in watching the never-ending stream. No change, no variety, all alike. And this age tends to make human beings alike. It is the age of standardization and classification. It takes more nervous energy and more courage than we have to hold out against the call to sameness. If we find we are doing the same thing in the same way that our neighbor is doing, it gives us a feeling of comfort and satisfaction. If we find we think differently and do differently, we are likely to worry about it. Human beings have to be careful or they will be fed into the machines which they have made.

NATURE'S MISTAKE?

When the British scientist, Harrison, declares that Nature, when she let man evolve, made a mistake, we are momentarily shocked. He says Nature overshot the mark. She produced a cunning, big-brained animal and yet didn't make him wise enough to know what to do with himself. Something in that. On further thought we are less shocked, more interested. Dr. Harrison thinks that from what we know of the brain many thousands of years ago, if the same man were living today he might become a skilled mechanic, a good bishop, an able statesman.

BILLBOARDS

The rank and file of us will rise and clap our hands for Colonel Fred Greene, superintendent of public works in New York. He built a lattice work to screen a billboard from the public view near a bridge over the Hudson river. Now he has to fight in court because the billboard people didn't like it. Several hundred folks who crave a bit of country view will be backing Colonel Greene in spirit.

Whoever got the idea this country ought to be hidden behind a billboard?

FLAT FEET

A New York doctor says women get flat feet from riding in automobiles. What they need is the natural use of the foot. Many of us get the notion that by saving a muscle or a talent we improve it. We rest our brains, but they don't improve with rest. They wear out. We rest our feet and they are not as healthy as the feet of people who walk. We rest our impulse to be kind. We do not become more kind; we become hard. Faculties grow by use—not by overuse, but by reasonable use.

Answers to questions of information and fact can be obtained by writing to Central Press Bureau, 1435 East Twelfth street, Cleveland, O., and enclosing a self-addressed, stamped envelope. No answers will be given to marital, medical or legal questions, nor will the estimated value of old coins be given.

How many acres do the following cities cover? New York, Chicago, Los Angeles, Paris, London and Berlin?

The acreage of the following cities is: New York, 191,360 acres; Chicago, 134,726 acres; Los Angeles, 282,424 acres; Paris, 19,279 acres; London, 74,850 acres; Berlin, 216,891 acres.

Radio

By whom was the radio invented?

Radio traces its descent directly to the theoretical work of James Clerk Maxwell, who in 1865 made the declaration that visible light consists of electric waves in the ether. In 1887 Heinrich Hertz of Germany gave experimental proof of the existence of these electrical waves. Between the years 1894 and 1896 Guglielmo Marconi of Italy initiated his experiments on the coherent. Other improvements followed, but in 1906 the outstanding invention of the entire history of radio, the thermionic vacuum tube, was invented by Lee De Forest.

Lake Michigan

What is the length and breadth in miles of Lake Michigan?

The length of Lake Michigan is 307 miles and the breadth is 118 miles.

Presidential Succession

Can the secretary of state, a foreign born, become president of the United States if both the president and vice president die?

No, the secretary of state, if not a natural born citizen, cannot become president if both the president and vice president die. In the constitution, article 2, section 1, it is provided that "no person except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall have attained to the age of thirty-five years and been fourteen years a resident within the United States. In case of the removal of the president from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the vice president, and the congress may by law provide for the case of removal, death, resignation, or inability, both of the president and vice president, declaring what officer shall then act as president, and such officer shall act accordingly until the disability be removed or a president shall be elected." Thus congress could not appoint the secretary of state to the presidency if he was foreign born.

German Reich

How many states comprise the present German reich?

There are 41 states in the German reich.

Bo-Broadway

By JOSEPH VAN RAALTE

NEW YORK CITY, N. Y.—A newspaper man had occasion to question a Park Avenue Pompadour recently. He was unable to pass the doorman at the sumptuous apartment house and so contented himself on the sidewalk until the Great Man appeared for his daily "outing" between the doorway of his home and the step of his limousine.

Intercepted by the reporter, he stopped in his tracks, and said: "Do you know me, fellow?" "No," replied the reporter. "Should I?"

HAPPY ANYWHERE

The New York subway is no place for the man or woman with sensitive nerves, a weakened constitution or a short temper.

Fortunately, the average subway patron is not hampered by even a bowing acquaintance with conservative prejudices. Suffocation, crowding, foetid air, mean nothing in his young life. Pack him with thousands of his fellows, in sardine-can-intimacy into eight or ten steel cars and he'll sit or hang to a strap for an indefinite stretch, if necessary, wholly happy, provided he's had the foresight to provide himself with a wad of gum or a newspaper.

There he remains, peacefully percolating, a mockery and a taunt to the cultured cuss whose nostrils quiver, whose soul revolts and whose stomach churns at the least hint of a small below G minor.

With election-time approaching the man in public life who is making a temporary hit with the Pew Holders should not lost sight of the fact that "republics is ungrateful" and that it's no uncommon experience for the crowd to cheer a man into eminence just for the supreme pleasure they get in turning around and making a doormat out of him.

Dr. Pretzman, Harrel, Marsten and Martin now represent that they have fresh evidence, of a sort at least requiring still more explanations.

They likewise raise the old issue of the bishop's exercise of political influence, concerning which he not only never has been tried but refused even to explain, when called as a witness before the senate lobby investigating committee last summer.

And finally there are charges based on "personal conduct."

As to what these may be one per-

Another William Tell Act That Is Being Watched With Interest

WASHINGTON DISPLAYS INTEREST IN APPROACHING INVESTIGATION OF BISHOP CANNON BY HIS ELDERS

By CHARLES P. STEWART

WASHINGTON. — Investigation by the college of bishops of the Methodist Episcopal Church South of charges against Bishop James Cannon, Jr., is looked forward to in Washington with about the same degree of interest that the capital might reasonably be expected to feel in impending impeachment proceedings against (say) a justice of the supreme court of the United States.

Perhaps, parenthetically, it should be emphasized that an impeachment is not equivalent to a removal from office, as many folk suppose; it is only an accusation.

This is just the position in which Bishop Cannon finds himself—accused.

How much importance the country at large attaches to the complaint concerning him, filed by the Rev. Drs. Forrest J. Pretzman of Baltimore, Costen J. Harrell and J. T. Marsten of Richmond, and E. P. Martin of Abingdon (Va.), I have no means of estimating. Washington, however, seems to me to rate it as something less than the consequence of a hearing involving the possibility of a president's removal, but as of decidedly more significance than one with no higher secular post than a senator's at stake.

Church folk, I imagine, will point out that such a comparison tends to assume a political angle in connection with a case about which there is nothing political whatever, but the fact is that Washingtonians do assume it.

In a way, they have their reasons for doing so. It must be remembered that Bishop Cannon is as well known here as if he were a Washingtonian himself, though his legal residence is in Virginia, and his best friends do not dispute that he has been politically very active—the essential difference between his friends and his accusers being that the former insist he has been no more active than any citizen has a right to be, while his accusers maintain that he has overdone it, among various other things. Anyhow, political "repercussions" (as statesmen express themselves) from the investigation of his record are strongly probable, in one direction or another.

The impression appears to be quite general that the bishop was quieted at his church's general conference in Dallas last May, and acquiesced, and that the present proceedings are in the nature of placing him a second time in jeopardy. This is a misunderstanding, according to Dr. Pretzman of Baltimore, one of the complainants.

What really happened, it seems, was that the bishop's stock market transactions with the New York brokerage firm of Kable & Co. were called in question, whereupon the bishop expressed his deep regret for these dealings but explained that he had regarded them as legitimate investments—an explanation accepted by the conference, which accordingly voted not to try him.

Dr. Pretzman, Harrel, Marsten and Martin now represent that they have fresh evidence, of a sort at least requiring still more explanations.

They likewise raise the old issue of the bishop's exercise of political influence, concerning which he not only never has been tried but refused even to explain, when called as a witness before the senate lobby investigating committee last summer.

And finally there are charges based on "personal conduct."

As to what these may be one per-

son's guess is as good as another's. They evidently do not relate to the bishop's conduct as a market trader or as a politician, for his trading and his politics are listed separately; plainly they deal with some line of conduct in a distinct category.

Whatever may be the ideas of Drs. Harrell, Marsten and Martin, Dr. Pretzman has made it clear what he considers ought to follow. In the event that the Methodist Episcopal Church South sustains the latest accusations against Bishop Cannon.

A culprit who is sincerely repentant should be forgiven, he says, but he argues that the best evidence of sincerity is a willingness to submit to a suitable penalty for transgression.

In brief, he suggests punishment, should the bishop be found culpable.

Rather less than two years ago Bishop Cannon had the look of a man who was exceedingly well able to take care of himself in almost any controversy. I can hardly imagine anyone then feeling that it would be a hopeful task to advise him to resign, as his fellow clerical, Bishop Horace M. Dabose of Nashville has done since the launching of the Pretzman-Harrell-Marsten-Martin complaint against him.

He is not tall and his figure is slight. His face is merely average. Nevertheless, glancing at him twice, one sensed exceptional vigor in his personality. He had confidence, poise and he spoke with energy and pungency—obviously

mean what he said and would not stand opposition.

Of late, however, he has aged, and rapidly.

Before the senate lobby committee a few months ago, he said only what he chose to say, to be sure, but he did it without his one-time defiant manner. The fire was gone from his eyes. His voice was tired.

Probably he cared very little for his senatorial inquisitors, but he was just back from the ordeal with his own church folk at Dallas, and that it may be, had been a more trying experience for him. I judged that he might have enjoyed telling a senate committee where to "get off" if he had been in the top form, but he appeared to lack the spirit to make much of the opportunity.

Doubtless he still has the fighting instinct, but all the indications are that the joy of battle has gone out of him.

"She has wasted her youth and is without a home. Surely she has paid the price. Is it worth it? "An Admirer of your Column."

Thank you, dear Admirer. I never pay for one woman to rob another of her husband. No matter how innocently one becomes involved in such a love affair, the only wise, and in the end, the happiest thing to do, is to put it from one. Such affairs cause endless heartache for all concerned.

And the transgressor is always the one to suffer most in the end. Wonder if your friend tried to help the girl to mend her broken life. She must be a wonderful woman to survive the almost impossible situation created by taking her husband's inamorata into her home.

"Dear Virginia Lee: Thank you kindly for your answer to my last letter. As you may recall, I am the girl who had met a 'perfect boy' and didn't realize how lucky I was. This is what I've done about it.

"I gave him up. Am I sorry? Not as yet. And I don't suppose I shall be.

"Do you know, Miss Lee, that it seems to be a characteristic of our family not to marry young. I have two sisters at home. One is 30 and the other just past 30. They are both enjoying themselves immensely and both have had numerous proposals for marriage. Mother has always told us, 'Children, don't rush into marriage, because you'll be married long.'

BASHFUL BOY: I can hardly answer you satisfactorily unless I could see you together, Bashful Boy. Do you treat her casually, as if you were not particularly interested in her? That might be the boy's meaning, and that unless you wake up and show her by your actions that you think she's pretty "hot" other boys will.

BLACKIE: If you do not dislike the second boy why not go with him occasionally, and ally with the 19-year-old one, too? Jolly both of them along and have a good time. You'll probably find out in time whether the older one likes you very much or whether he just considers you an occasional "pastime," as you say.

Many women exaggerate the importance of the slight down on their faces. They become almost frantic at the appearance of the finest bit of hair and recklessly undergo operations that often result in a heavier and darker growth or in irreparable damage to the skin.

Let no one persuade you to submit to modified X-ray treatment for the removal of superfluous hair. The X-ray machine is too powerful an instrument to be toyed with inexpertly. The method is unsuccessful, for it is impossible to determine the accurate dosage to harmlessly remove the hair. If the X-ray application is not of sufficient strength, the hair will be removed only temporarily. If it is too strong the hair will be permanently removed, but the skin will be greatly endangered.

Legitimate X-ray practitioners contend that no possible modification of the X-ray machine could permanently destroy hair without also destroying the surrounding skin. It is logical to suppose that treatments strong enough to kill the hairs will also be strong enough to mar the skin. When the specialized tissue is destroyed the skin acquires an odd "dead" appearance. It becomes hard and puckered, and in some instances, gives every evidence of a skin cancer.

This is not mere supposition. There are a number of women who have undergone modified X-ray treatments and who are now bewailing their rash action. Every one of them would much rather

EDITOR'S NOTE: While it is impossible for Miss Glad to answer beauty questions by mail, she will be happy to send you her pamphlets on "The New Figure" and "Beauty Culture" if you will write her, care of this paper, enclosing a self-addressed, stamped envelope and 10 cents in coin for each. Cold Cream

Dot: I think that a good brand of cold cream is far more beneficial to the skin than the preparation you mention.

This week we introduce none other than Arnold Boxwell as a prognosticator of the results of certain collegiate football games on Saturday's menu. Twenty-four grid struggles carded for Saturday are being made the basis of Boxwell's predictions and after looking over the list of scheduled games our sympathy goes out to him. Boxwell's forecasts follow:

Georgia Tech to beat Carnegie Tech.
Colgate to beat Lafayette.

Ohio State "B" to beat Heidelberg.
Illinois to beat Butler.
Miami to beat Ky. Wesleyan.

Pittsburgh to beat West. Reserve.
Wisconsin to beat Chicago.
Wash. and Jeff. to beat Wittenberg.
Yale to beat Georgia.

Wilberforce to beat North Carolina State.
A pair of 13½ size shoes, on exhibit at Miami University since Arba Hawk were them eight years ago, was dusted off recently and given to a candidate for the freshman football team. Do you suppose this youth with the big feet is being groomed to do the punting for the freshman eleven?

Baseball no longer holds an appeal for members of the hapless Brooklyn Robins—and small wonder that the end of the National League campaign was hailed with delight by the Dodgers.

A general house-cleaning is contemplated at Ebbetts Field this winter, and it will sweep away several performers who have been fixtures on the team for several years, reports say.

Brooklyn club officials were sadly disappointed by the collapse of the Robins just when a pennant was in sight, but they realize where the fault lies. In the final analysis the Robins of 1930 were not a championship outfit and it is felt they won't be able to attain the heights until certain replacements are made.

Specifically, the club needs a top-notch second baseman and another outfielder of established worth. Another pitcher or two would also be welcomed, since several of the present hurlers may figure in off-season trades, and another young catcher would be a valuable addition likewise.

Whether the needed players can be obtained in the National League remains to be seen. Good second basemen are scarce articles and outfielders who combine fielding skill with hitting ability are also somewhat rare in these times.

Howard Donley can hardly wait until Thursday this being the evening he has looked forward to for a long time with an impatience which he finds it difficult to restrain. The occasion will be the first match of the season between the champion Gr. Co. L. Co. bowling team and the Schmidt Oil Co. quintet. "Irish" is the lead-off bowler for the latter team, which is in second place, two games behind the lumber company. The city champs have won twelve straight games without a defeat but Howard figures that his team will take a couple of games at least and possibly knock the leaders off their high perch.

BOWLING

The Red Wing Co. bowling team snapped out of its prolonged slump and won three straight games from the Xenia Shoes in a Recreation League match Tuesday night. Smith, with a series of 576, including a single game of 231, led the Red Wings, while Luttrell's 523 was best for the losers. Box score: Red Wing Co. ABSENT VOTERS' BALLOTS READY

Absent voters ballots are now available, according to an announcement made Wednesday by Earl Short, clerk of the election board.

Voters expecting to be away from the home precincts on election day Tuesday, November 4 may cast their votes in advance through the medium of absentee ballots. Applications for these ballots may be made through the mail or personally and the deadline date is midnight Saturday, November 1. All absentee ballots received before noon on election day, however, will be counted.

PIQUA AND CENTRAL TANGLE HERE; TROY MEETS GREENVILLE

Champions Have Two Wins To Credit For Season

By PHIL FRAME
First skirmishes in the impending Miami Valley League warfare will take place Saturday with Xenia Central entertaining Piqua Central, Greenville High invading Troy and Sidney and Miamisburg meeting non-league foes.
Piqua, riding on the crest of two straight victories and opening the defense of the league title it won in 1929 and shared with Sidney in 1928, will reign a favorite to defeat the Buccaneers here, but the final score, on the strength of Xenia's first class showing against Wilmington last Friday, may be closer than most people expect.
The Bucs emerged from the Wilmington struggle in fair physical shape and as a reward for their fine showing the regulars who took part in the game enjoyed what amounted to a vacation Monday afternoon. Tuesday, however, Coach Wilson sent his charges through a long drill, seeking to perfect a forward passing defense. Laxity in defense against passes cost the Bucs a possible tie with Wilmington and reports indicate that Piqua has a well executed aerial offense this season, something unusual for the Indians.
Greenville High, which is favored to "take" the green Trojan eleven Saturday, rose to supreme heights last Friday in defeating Cincinnati Purcell, although the Big Green was outweighted twenty pounds per man. Nevertheless, Greenville overcame this handicap by completely outfighting the visitors and walloped them, 8 to 0 in the second half.
Troy has no particular illusions concerning a successful league season. The Trojans were swamped by Springfield High, 62 to 0 in a night game last week and were totally outclassed.

With only four letter men back, namely, Oxley, Snell, Myers and Ross, Troy's eleven is virtually new and has won one game and lost one since this fall.

With three games already played and the fourth with Franklin High scheduled for Saturday at Harmon Field in Miamisburg, the Burger grid machine will soon be ready for the opening of the league schedule.

Coach E. O. Wright's proteges have won two games and lost only two since Dayton Roosevelt and at Tipp City last Saturday the Star City eleven won by a 7 to 0 margin from a team by which it was outweighted twenty pounds a man.

Numerous Burger reserves are expected to get into action against Franklin, although the regulars will start the contest. Donovan, flashy freshman halfback, is out with a wrenched knee and J. Gehart will also be on the sidelines as a result of injuries received in the Tipp City fracas. Kelly and Miller, utility backs, will be used most of the game and a complete second string line is also being primed for action. Hahle, freshman center, and several other subs are expected to be inserted into the lineup in order to save the regulars for the first league engagement with Troy on the following week.

Defeated by the O. S. and S. O. Home of Xenia and Bradford of two successive week ends, Sidney High hopes for better luck Saturday when it entertains Bellefontaine as its third foe of the season.
Bellefontaine's team averages 168 pounds, unusually heavy for a high school. Cromer is out for practice at Sidney this week and is expected to add speed and experience to the Yellow-Jacket backfield.

INJURIES FATAL

COLUMBUS, O., Oct. 8.—Injuries which he sustained last Saturday while he was cranking his automobile had proved fatal today to Sylvester Mehler, 28, teller at the Ohio National Bank here.
Mehler was crushed between the bumper and the wall of his garage. He was taken to a hospital where an operation to save his life was unsuccessful.

KOGUT MAY MEET MATCH IN PAUL ADLER IN SATURDAY MAT SHOW

Jack Kogut, sensational legdrop artist from Dayton who has been bowling over all light heavyweight opposition for the past six months, will headline the wrestling card at the Opera House Saturday night with Paul Adler, of Indian Lake as his opponent.

While Kogut has had comparatively easy sailing in his two previous bouts here he will be meeting no set up in Adler. The Indian Lake light heavy has met Kogut twice, once in Lima and once in Dayton. He handed him a pasting in Lima and wrestled a great thirty-minute draw with him in Dayton.

The decision in Dayton was unpopular as the fans figured that Adler should have had it. Just a youngster, Adler is one of the fastest and toughest lads to come up in the light heavyweight ranks in years and his many backers are predicting the title for him in a year's time. Just what Kogut and his legdrop can do against an opponent of this caliber is a question. While he made easy work of Brown and Hanson he will find Adler a far different proposition and his inability to even come close to knocking him in their two previous engagements will hardly make him a favorite to win this one. In fact when they met the last time several veteran wrestling critics at the ringside predicted that Adler would beat Kogut in straight falls if they ever met again.

To describe Adler in action is difficult. He moves so fast and is so vicious that he had Kogut completely bewildered before and with the experience that he has gained since then is very apt to break Jack's winning streak in Xenia.

"Speed" Crawford, local colored lad, who has already made the boys sit up and take notice, will square off against Bob Kessler in the thirty-minute semi-finals. Kessler insists that he isn't afraid of Crawford and claims an automobile breakdown kept him from facing Crawford last week. He has posted a forfeit that he will be on hand and promises Crawford a licking for claiming that he had run out on him.

No. 19—THE ATTACK (Net Play)
Net play is the finishing touch of offense. Go to the net only to put the final touch to the point and PUT THE BALL AWAY.

Do not run to the net indiscriminately, but go after you have prepared the way with ground strokes. Anticipate as far as possible. When your opponent will return the ball and then make your kill. The net rusher has to contend with the well-timed lob which will slow him up considerably.

Make your rule at the outset to go to the net only when opportunity offers itself, and play your volleys sharply into the areas previously marked No. 4 and 5 in vicinity of the service line. If you cannot do this hit your ball to a point farthest from where your opponent last hit the ball.

There are only three things your adversary can do when you are at the net. (1) He can lob, (2) play a straight shot, (3) use a crosscourt shot.

So play your ball to a point where he will have the hardest time doing what you least expect. When your opponent lobs, do not rush to the "kill" but PLACE the first return carefully.

KILL ONLY WHEN YOU ARE SURE OF RESULTS. TAKE NO CHANCES, unless you are justified.

PLAINTIFF GIVEN \$3,000 JUDGMENT BY JURY WEDNESDAY

Deliberating less than two hours after receiving the case at 10 a. m. Wednesday, the October petit jury in Common Pleas Court returned a verdict for \$3,000 in favor of the plaintiff in the \$25,000 damage suit filed as a sequel to the death of Miss Virginia Cross, 18, daughter of Mr. and Mrs. Harry Cross, 317 W. Church St., against Walter Young, 26 Bonner St., Dayton, owner of the auto in which the girl was riding when she was fatally injured in an auto accident April 3 last. Three women and nine men composed the jury.

The suit was brought by the decedent's father, as administrator of the estate, who charged the accident was due to negligence on the part of the driver of the machine, in which his daughter and two other girls and two boys were riding.

The Cross girl was alone in the rumble seat of the machine. When the driver failed to negotiate an abrupt curve in the road under the overhead bridge on the Springfield Pike, three miles north of Xenia, the auto crashed into a concrete abutment. Miss Cross, who was a junior in Xenia Central High School, who fatally hurt but the other occupants escaped serious injury.

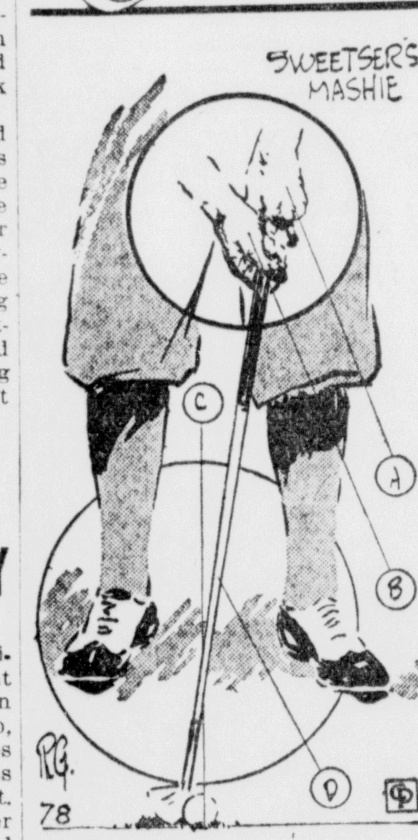

WOMEN CONFER WITH NUTRITION EXPERT IN XENIA TUESDAY

Eight Greene County women came from seven townships Tuesday afternoon to discuss with Miss Lella Ogilvie, nutrition specialist from Ohio State University the possibilities of some nutrition demonstrations they might secure this year. There were various interests expressed for different types of lessons that might be obtained. The group decided that "Invalid Cookery" would be most appreciated since the major project in the County is "Home Care of the Sick."

Ways of organizing the work were discussed and it was decided that the lesson would be given by Ruth Radford, Home Demonstration Agent on November 18 at Xenia, November 19 at Ross Twp. School and on November 21 at Bath Twp.

Those present at the meeting to help organize the course were: Mrs. John Ray, Xenia Twp.; Mrs. Ernest Bradford, Beaver Creek Twp.; Mrs. D. C. Bradford, Cedarville Twp.; Mrs. W. C. Cooper, Bath Twp.; Mrs. Leroy Jacobs, Miami Twp.; Mrs. Ray Eagle, Spring Valley Twp.; Mrs. M. K. Rittenour and Mrs. E. R. Little, Ross Twp.; together with Miss Lella Ogilvie, nutrition specialist of Ohio State University and Ruth Radford, Greene County home demonstration agent.

FROM TEE TO GREEN

SWEETSER'S MASHIE
By ROY GROVE
Central Press Golf Writer

The 1930 national amateur tournament may be won on the mashie, or the No. 5 iron, as it is known professionally.

The former national champion, Jesse Sweetser, is probably the greatest exponent of this shot. With the mashie Sweetser has won American amateur and British amateur crowns.

His accuracy, in range and at the stop, are his fine points with this club.

First, you will note he plays the ball on a center line (shown by C). There he gauges on the stoppage and the run the ball will take after it hits the green. Sweetser then hits down into this shot taking the turf in the direction of the hole.

The stroke is played with a very stiff and rigid left arm, which accounts for the accuracy of the mashie under all conditions.

Note that the left hand is well over the club and the position of the right hand in relation to the left. This is very important and aids in putting punch into a shot with the wrists. This also controls the sweep of the arms.

You will also see that the shaft of the club is at an angle (D) to the position of the ball in relation to the hands.

The hands are played a bit ahead of the ball (as in A and B), which gets the club away before the hands start. This takes up the whip action of the wrists when punching through the ball.

Griddler Police Chief

Reminiscent of old Cy Warmoth, former Washington hurler who at the same time was police chief of Mt. Carmel, Ill., is George Atkinson, University of Kansas football guard who studies in the morning, practices football in the afternoon and spends his nights as night police chief of the city of Lawrence, Kas.

HACK WILSON MOST VALUABLE PLAYER

PHILADELPHIA, Oct. 8.—Hack Wilson, Chicago Cub outfielder, is the most valuable ballplayer in the National League.

The bruin slugger was given that honor by vote of a committee of the Baseball Writers' Association of America, attending the world series here.

Wilson just nosed out Frankie Frisch of the St. Louis Red Wings, by receiving seventy points out of a possible eighty to the Fordham flash's sixty-four.

Bill Terry, of the New York Giants, followed Frisch with fifty-eight markers.

N. Y. STOCK MARKET

NEW YORK, Oct. 8.—Though reaching slightly higher price levels in the early trading today, most of the industrial favorites were driven off by fairly heavy selling before the end of the first hour and the market was unsettled but dull as the session advanced.

A 3-1/2 per cent decrease in steel output, as estimated by Dow Jones and Company and a 250,000 decrease in freight car loadings as compared with the same week in 1928 and 1929 offered little comfort to those who were looking for signs of the business recovery and little stimulus for the buying of industrial stocks.

Rallies of a point or more were recorded at the outset in Allied Chemical, Gold Dust, Case and other favorites and a score or more of the favorites advanced fractionally in the first hour. The utilities were again unsettled by persistent selling. American Waterworks losing more than three points at 84-1/2 and American and Foreign Power down 2-1/8 at 45-1/8.

Extreme dullness prevailed in all sections of the market near the noon period, and price changes were narrow. United States Steel reacted from 154 to 152 3/4 and many of the blue-chips lost the greater part of their early spurts. Grain and cotton were steady, the latter market being unaffected by the government's crop report. Call money was unchanged at 2 per cent.

Howard Donley can hardly wait until Thursday night, this being the evening he has looked forward to for a long time with an impatience which he finds it difficult to restrain. The occasion will be the first match of the season between the champion Gr. Co. L. Co. bowling team and the Schmidt Oil Co. quintet. "Irish" is the lead-off bowler for the latter team, which is in second place, two games behind the lumber company. The city champs have won twelve straight games without a defeat but Howard figures that his team will take a couple of games at least and possibly knock the leaders off their high perch.

BOWLING

The Red Wing Co. bowling team snapped out of its prolonged slump and won three straight games from the Xenia Shoes in a Recreation League match Tuesday night. Smith, with a series of 576, including a single game of 221, led the Red Wings, while Luttrell's 523 was best for the losers. Box score:

ABSENT VOTERS' BALLOTS READY

Absent voters ballots are now available, according to an announcement made Wednesday by Earl Short, clerk of the election board.

Voters expecting to be away from their home precincts on election day Tuesday, November 4 may cast their vote in advance through the medium of absentee ballots. Applications for these ballots may be made through the mail or personally and the deadline date is midnight Saturday, November 1. All absentee ballots received before noon on election day, however, will be counted.

PIQUA AND CENTRAL
TANGLE HERE; TROY
MEETS GREENVILLEChampions Have Two
Wins To Credit For
Season

By PHIL FRAME

First skirmishes in the impending Miami Valley League warfare will take place Saturday with Xenia Central entertaining Piqua Central, Greenville High invading Troy and Sidney and Miamisburg meeting non-league foes.

Piqua riding on the crest of two straight victories and opening the defense of the league title it won in 1929 and shared with Sidney in 1928, will regain a favorite to defeat the Buccaneers here, but the final score, on the strength of Xenia's first class showing against Wilmington last Friday, may be closer than most people expect.

The Bucs emerged from the Wilmington struggle in fair physical shape and as a reward for their fine showing the regulars who took part in the game enjoyed what amounted to a vacation Monday afternoon. Tuesday, however, Coach Wilson sent his charges through a long drill, seeking to perfect a forward passing defense. Latency in defense against passes cost the Bucs a possible tie with Wilmington and reports indicate that Piqua has a well executed aerial offense this season, something unusual for the Indians.

Greenville High, which is favored to "take" the green Trojan eleven Saturday, rose to supreme heights last Friday in defeating Cincinnati Purcell, although the Big Green was outweighted twenty pounds per man. Nevertheless, Greenville overcame this handicap by completely outfighting the visitors and walloped them, 8 to 0 in the second half.

Troy has no particular illusions concerning a successful league season. The Trojans were swamped by Springfield High, 62 to 0 in a night game last week and were totally outclassed.

With only four letter men back, namely, Oxley, Snell, Myers and Ross, Troy's eleven is virtually new and has won one game and lost one to date this fall.

With three games already played and the fourth with Franklin High scheduled for Saturday at Harmon Field in Miamisburg, the Burger grid machine will soon be ready for the opening of the league schedule.

Coach E. O. Wright's proteges have won two games and lost only to Dayton Roosevelt and at Tipp City last Saturday the Star City eleven won by a 7 to 0 margin from a team by which it was outweighted twenty pounds a man.

Numerous Burger reserves are expected to get into action against Franklin, although the regulars will start the contest. Donovan, flashy freshman halfback, is out with a wrenched knee and J. Gephart will also be on the sidelines as a result of injuries received in the Tipp City fracas. Kelly and Miller, utility backs, will be used most of the game and a complete second string line is also being primed for action. Hehlich, freshman center, and several other subs are expected to be inserted into the lineup in order to save the regulars for the first league engagement with Troy on the following week.

Defeated by the O. S. and S. O. Home of Xenia and Bradford on two successive week ends, Sidney High hopes for better luck Saturday when it entertains Bellefontaine as its third foe of the season. Bellefontaine's team averages 168 pounds, unusually heavy for a high school. Cromer is out for practice at Sidney this week and is expected to add speed and experience to the Yellow-Jacket backfield.

KOGUT MAY MEET MATCH IN PAUL
ADLER IN SATURDAY MAT SHOW

Jack Kogut, sensational legdrop artist from Dayton who has been bowling over all light heavyweight opposition for the past six months, will headline the wrestling card at the Opera House Saturday night with Paul Adler, of Indian Lake as his opponent.

While Kogut has had comparatively easy sailing in his two previous bouts here he will be meeting no set up in Adler. The Indian Lake light heavy has met Kogut twice, once in Lima and once in Dayton. He handed him a pasting in Lima and wrestled a great thirty-minute draw with him in Dayton.

The decision in Dayton was unpopular as the fans figured that Adler should have had it.

Just a youngster, Adler is one of the fastest and toughest lads to come up in the light heavyweight ranks in years and his many backers are predicting the title for him in a year's time. Just what Kogut and his legdrop can do against an opponent of this caliber is a question. While he made easy work of Brown and Hanson he will find Adler a far different proposition and his inability to even come close to knocking him in their two previous engagements will hardly make him a favorite to win this one. In fact when they met the last time several veteran wrestling critics at the rapide predicted that Adler would beat Kogut in straight falls if they ever met again.

To describe Adler in action is difficult. He moves so fast and is so vicious that he had Kogut completely bewildered before and with the experience that he has gained since then is very apt to break Jack's winning streak in Xenia.

"Speed" Crawford, local colored lad, who has already made the boys sit up and take notice, will square off against Bob Kessler in the thirty-minute semi-finals. Kessler insists that he isn't afraid of Crawford and claims an automobile breakdown kept him from facing Crawford last week. He has posted a forfeit that he will be on hand and promises Crawford a licking for claiming that he had run out on him.

No. 19—THE ATTACK (Net Play)

Net play is the finishing touch of offense. Go to the net only to put the final touch to the point and PUT THE BALL AWAY.

Do not run to the net indiscriminately, but go after you have prepared the way with ground strokes.

Anticipate as far as possible where your opponent will return the ball and then make your kill.

The net rusher has to contend with the well-timed lob which will slow him up considerably.

Make your rule at the outset to go to the net only when opportunity offers itself, and play your volleys sharply into the areas previously marked No. 4 and 5 in vicinity of the service line. If you cannot do this hit your ball to a point farthest from where your opponent last hit the ball.

There are only three things your adversary can do when you are at the net. (1) He can lob, (2) play a straight shot, (3) use a crosscourt shot.

So play your ball to a point where he will have the hardest time doing what you least expect.

When your opponent lobs, do not rush to the "kill," but PLACE the ball carefully.

KILL ONLY WHEN YOU ARE SURE OF RESULTS. TAKE NO CHANCES, unless you are justified.

PLAINTIFF GIVEN
\$3,000 JUDGMENT
BY JURY WEDNESDAY

Deliberating less than two hours after receiving the case at 10 a. m. Wednesday, the October petit jury in Common Pleas Court returned a verdict for \$3,000 in favor of the plaintiff in the \$25,000 damage suit filed as a sequel to the death of Miss Virginia Cross, 18, daughter of Mr. and Mrs. Harry Cross, 317 W. Church St., against Walter Young, 28 Bonner St., Dayton, owner of the auto in which the girl was riding when she was fatally injured in an auto accident April 3 last. Three women and nine men composed the jury.

The suit was brought by the decedent's father, as administrator of the estate, who charged the accident was due to negligence on the part of the driver of the machine, in which his daughter and two other girls and two boys were riding.

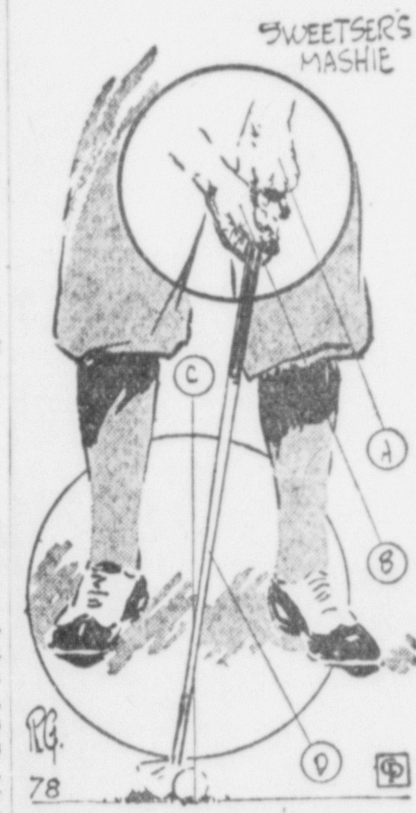

The Cross girl was alone in the rumble seat of the machine. When the driver failed to negotiate an abrupt curve in the road under the overhead bridge on the Springfield Pike, three miles north of Xenia, the auto crashed into a concrete abutment. Miss Cross, who was a junior in Xenia Central High School, who fatally hurt but the other occupants escaped serious injury.

WOMEN CONFER WITH
NUTRITION EXPERT
IN XENIA TUESDAY

Eight Greene County women came from seven townships Tuesday afternoon to discuss with Miss Lella Ogle, nutrition specialist from Ohio State University the possibilities of some nutrition demonstrations they might secure this year. There were various interests expressed for different types of lessons that might be obtained. The group decided that "Invalid Cookery" would be most appreciated since the major project in the County is "Home Care of the Sick."

Ways of organizing the work were discussed and it was decided that the lesson would be given by Ruth Radford, Home Demonstration Agent on November 18 at Xenia, November 19 at Ross Twp. School and on November 21 at Bath Twp.

Those present at the meeting to help organize the course were: Mrs. John Ray, Xenia Twp.; Mrs. Ernest Bradford, Beaver Creek Twp.; Mrs. D. C. Bradford, Cedarvale Twp.; Mrs. W. C. Cooper, Bath Twp.; Mrs. Leroy Jacobs, Miami Twp.; Mrs. Ray Eagle, Spring Valley Twp.; Mrs. M. K. Rittenour and Mrs. E. R. Little, Ross Twp. together with Miss Lella Ogle, nutrition specialist of Ohio State University and Ruth Radford, Greene County home demonstration agent.

FROM

SWEET'S MASHIE
By ROY GROVE
Central Press Golf Writer

The 1930 national amateur tournament may be won or lost on the mashie, or the No. 5 iron, as it is known professionally.

The former national champion, Jesse Sweetser, is probably the greatest exponent of this shot. With the mashie Sweetser has won American amateur and British amateur crowns.

His accuracy, in range and at the stop, are his fine points with this club.

First, you will note he plays the ball on center line (shown by C). There he gauges on the stoppage and the run the ball will take after it hits the green. Sweetser then hits down into this shot taking the turf in the direction of the hole. The stroke is played with a very stiff and rigid left arm, which accounts for the accuracy of the mashie under all conditions.

Note that the left hand is well over the club and the position of the right hand in relation to the left. This is very important and aids in putting punch into a shot with the wrists. This also controls the sweep of the arms.

You will also see that the shaft of the club is at an angle (D) to the position of the ball in relation to the hands.

The hands are played a bit ahead of the ball (as in A and B), which gets the club away before the hands start. This takes up the whip action of the wrists when punching through the ball.

HACK WILSON MOST
VALUABLE PLAYER

PHILADELPHIA, Oct. 8.—Hack Wilson, Chicago Cub outfielder, is the most valuable ballplayer in the National League.

The bruin slugger was given that honor by vote of a committee of the Baseball Writers' Association of America, attending the world series here.

Wilson just noosed out Frankie Frisch of the St. Louis Red Wines, by receiving seventy points out of a possible eighty to the Fordham flash's sixty-four.

Bill Terry, of the New York Giants, followed Frisch with fifty-eight markers.

N. Y. STOCK
MARKET

NEW YORK, Oct. 8.—Though reaching slightly higher price levels in the early trading today, most of the industrial favorites were driven off by fairly heavy selling before the end of the first hour and the market was unsettled but dull as the session advanced.

A 3 1/2 per cent decrease in steel output, as estimated by Dow Jones and Company and a 250,000 decrease in freight car loadings as compared with the same week in 1928 and 1929 offered little comfort to those who were looking for signs of the business recovery and little stimulus for the buying of industrial stocks.

Rallies of a point or more were recorded at the outset in Allied Chemical, Gold Dust, Case and other favorites and a score or more of the favorites advanced fractionally in the first hour. The utilities were again unsettled by persistent selling. American Water works losing more than three points at 8 1/2 and American and Foreign Power down 2 1/8 at 45 1/8.

Extreme dullness prevailed in all sections of the

ANNUAL FALL FAIR BEING PLANNED AT ALPHA NEXT WEEK

The seventh annual Fall Fair will be held at the K. of P. Hall at Alpha Thursday and Friday nights, October 16 and 17. Plans are being made for a good program each night, the entertainment to be made of various short stunts, plays, and comedy reels.

A large number of entries are expected in the farm products exhibits. Last year approximately 1,000 exhibits were made in the various classes. Entries may be made in the following classes: corn, small grains and seeds, fruit, vegetables, baked goods, canned goods, needlework, flowers, school lunch and eggs. Money prizes are awarded in all classes where competition is offered. Exhibitors must be residents of Beavercreek Township.

The pupils of the grade schools compete against each other for prizes in all classes listed. The open class is for high school pupils and adults. Special prizes are awarded to grade school rooms which have the highest number of points per pupil. Points are given for each entry made and additional points are given for any prizes won.

Beaver Fall Fair is sponsored by the vocational agriculture classes of the high school under the direction of A. A. Neff, teacher. The following officers are in charge of the 1930 fair: Orville Shellbarger, president; Arthur Hare, vice president; Raymond Huston, treasurer; Ronald Marshall, secretary; Carl Brill, business manager; Ben Hotop, arrangements manager; Wendell Hawker, publicity manager.

(Continued from Page One)

never been my good fortune to run into any such egg.

What I wished to say, however, was that this tooth-and-nail series is still a dog fight, and will remain so until the last man is out in the ninth.

There is no fold whatsoever to Mr. Street's Red Wings. From top to bottom, or from top to bottom, if you prefer, it's a game club that will go down taking its full swing.

I have just been fanning with some of the boys, including Little Willie Hallahan, on whose thin shoulders rests the burden of proof. If you think Willie lost any sleep last night over the A's, you're entitled to another guess.

It's just like pitching in batting practice," he says. "You chuck it up there and if they hit it they hit it and that's that."

Compare this attitude with that of Rube Walberg, whom they don't dare tell the night before that he is due to pitch the next day. When Mack took him out of Saturday's game in St. Louis, tears were streaming down Walberg's cheeks and his hands were shaking as though he was palsied.

Yet I don't think Walberg is any less game than Hallahan. It's a difference of temperament. Willie Bill is a young man of little imagination. The first major league player he ever faced was Hornsby. He struck him out.

When he came back to the bench he remarked: "That fellow stands too far from the plate. What's his name?"

Burt Shotton told him "Hornsby," expecting him to turn pale and gasp. He didn't. When Hornsby came to bat again they expected to see Hallahan lose control or get the ball knocked down his his throat. He struck Rog out again. He's that way.

Next to Burtleigh Grimes, the stormy petrel of the National League, I think the most interesting man in this series has been Mr. Mack.

"I don't think he has a good ball team, I'm rooting against them, but I have a profound respect for Connie. He is a grand old gentleman and a scholar with it, and at 65 he doesn't pretend to know all there is to know even about base ball. He is, in other words, 68 and still going wrong at times."

Usually a deep-dyed conservative, Mack will plunge like a Pittsburgh Phil or a Riley Grannen when occasion demands it.

Such a gamble he took when he derricked Earnshaw, who was giving a flawless performance, for a pinch hitter in the eighth inning of the last game in St. Louis. Grove had pitched nine frames the day before and, with Earnshaw gone, Grove was all he had. But the old man with the scorecard didn't hesitate. He took the big chance, and lost momentarily, for that eighth inning rally failed to bring the run for which both teams had been fighting and praying.

Grove then made the gamble good. The tall pine with the whip-like arm simply whizzed the ball past the batsmen in the eighth and ninth and by the time that last inning came he had two runs to go on.

Some claim Mack is in a tough spot with only two pitchers. I don't see that now. There are only two more games to play at most, and from all outward appearances the two world's series gold dust twins could go right on pitching through the football season. They have what it takes.

**ENROLLMENT NOW
PASSES 2,000 MARK**

Enrollment in the Xenia public schools has passed the 2,000 figure and now totals 2,072, including 1,053 girls and 1,019 boys, at the close of the first month of school, according to the September report issued by school authorities.

This is a considerable increase over the registration at the end of the first month of school in 1929 when the enrollment totalled 1,998, including 1,021 girls and 977 boys.

Following is the registration in each grade of school, as shown in the report just issued: first, 214; second, 210; third, 220; fourth, 218; fifth, 175; sixth, 158; seventh, 153; eighth, 164; ninth, 150; tenth, 155; eleventh, 131; twelfth, eighty-seven; special grade, twenty.

BONDS DEFINED

Article No. 7.

NEW YORK, Oct. 8.—In the days of early American finance, a large money-lender found himself in possession of a mortgage representing a loan to a building corporation. Some of the friends and relatives of this money-lender, wishing to find employment for their surplus funds, requested from him a participation in the interest-bearing paper he held. In order to accommodate them he made arrangements to "split up" the mortgage into several parts by the expedient of depositing it with a trustee and issuing certificates of the fractional parts thereof to the relatives and friends who had advanced their funds.

This was the beginning of bond issuing in the financing of American corporation projects. On the whole, bonds have been extremely popular, both with institutional and private lenders of money and their use has broadly expanded and increased in the last fifty years.

In its simplest form a bond is the evidence of the indebtedness of a corporation, or a government, to individuals or other corporations for money loaned. The simplest form of a bond is a direct promissory note, whereby one man obligates himself to pay his creditor a certain amount of money within a certain period. When and if a note of this kind is made negotiable and transferable to other interests, it becomes a money obligation which is enforceable by any holder of the note.

Obviously, if such note, or obligation, is intended to pass through a great many hands before its due date and be bought and sold in the financial markets, it must be printed on strong, heavy paper and otherwise protected against damage by frequent handling. This is the theory behind the printing of government and corporation bonds on strong paper with ink that is not readily removable and in a form which is not easily counterfeited.

From what has been said, it is plain to see that a financial obligation to a creditor of a debtor, and that this debtor may be a railroad company, a manufacturing concern, a steamship company, a town, or a municipality or province, or a whole nation. When properly drawn, the bond represents an I. O. U., signifying that it is the intention of the borrower of money to pay the debtor promptly on the due date, in a form acceptable to the creditor and with such interest charges as have been directly agreed upon by all the parties through the transaction.

As financial operations increase in volume and in complexity, there has been a logical increase in the various forms of bonds employed in this financing. A bond indenture specifying that there has been deposited valuable security for the faithful discharge of the obligation is a bond in its simplest form. They are also defined according to the uses made of the proceeds of the sale thereof, such as funding, refunding, adjustment, etc.

Bond varieties are innumerable as related to their exemption from taxes, their offering of privileges in corporate matters, their payment in gold, or some other form of currency and numerous other features. This will be treated in subsequent articles in this series.

Argument on behalf of the state was presented by Prosecuting Attorney J. Carl Marshall, and in the decree of the appellate court was defended by Attorney Frank H. Dean, as counsel for Nooks and Wallace. At the close of the hearing the supreme court took the case under advisement.

Nooks and Wallace were found guilty of the theft of forty chickens valued at \$40 from Leonard Platter, Osborn farmer, September 8, 1929.

The convictions were reversed by the appeals court because of refusal of the trial court to permit the introduction of defense testimony intended to discredit and impeach the principal state's witnesses.

The appeal in the Nooks and Wallace case was the first matter before the court, which opened its regular fall term at 9:30 a. m. Tuesday with all members of the bench present. The court had been in recess since June 13.

ANNUAL FALL FAIR BEING PLANNED AT ALPHA NEXT WEEK

The seventh annual Fall Fair will be held at the R. of P. Hall at Alpha Thursday and Friday nights, October 16 and 17. Plans are being made for a good program each night, the entertainment to be made of various short stunts, plays, and comedy reels.

A large number of entries are expected in the farm products exhibits. Last year approximately 1,000 exhibits were made in the various classes. Entries may be made in the following classes: corn, small grains and seeds, fruit, vegetables, baked goods, canned goods, needlework, flowers, school lunch and eggs. Money prizes are awarded in all classes where competition is offered. Exhibitors must be residents of Beaver Creek Township.

The pupils of the grade schools compete against each other for prizes in all classes listed. The open class is for high school pupils and adults. Special prizes are awarded to grade school rooms which have the highest number of points per pupil. Points are given for each entry made and additional points are given for any prizes won.

Beaver Fall Fair is sponsored by the vocational agriculture classes of the high school under the direction of A. A. Neff, teacher. The following officers are in charge of the 1930 fair: Orville Shellabarger, president; Arthur Hare, vice president; Raymond Huston, treasurer; Ronald Marshall, secretary; Carl Brill, business manager; Ben Hopp, arrangements manager; Wendell Hawker, publicity manager.

APPEAL IS ARGUED TO SUPREME COURT AT FIRST SESSION

Oral argument relative to the appeal of the state, seeking reversal of the action of the Greene County appellate court which reversed the decision of Common Pleas Court here in sentencing Forest Nooks, colored, and Samuel Wallace to terms of from one to seven years each in Ohio State Penitentiary after their convictions in the trial court on grand larceny charges, was submitted to the Ohio Supreme Court Tuesday morning.

IN LOVING memory of our beloved Son, Robert K. Davis, who passed away to the great beyond twelve years ago today, October 8.

Softly at night the stars are shining Upon the cold and silent grave Where thou layest, dearest baby, Whom we loved, but could not save.

Friends may think we have forgotten And our wounded hearts have healed, Little do they know the sorrow That within our hearts concealed.

In life we loved you dearly, In death we do the same, We often sit and think of you And wish you were here again.

We think of you in silence, No eyes can see us weep; But many silent tears are shed When others are asleep.

Forever remembered by his loving parents and brothers, Mr. and Mrs. A. C. Davis and Sons.

AGED WOMAN DIES

MARYSVILLE, O., Oct. 8.—Mrs. Susanna Duffey, 90, a native of Belmont County, died at her home in Thompson Township near here late yesterday from infirmities. She was the widow of Dexter Duffey, farmer.

IT WAS LOCKED A RAPID-FIRE MYSTERY STORY

BY JOHN HAWK RELEASED BY CENTRAL PRESS ASSN., INC.

READ THIS FIRST:

Robin Smith, a young and rising but extremely sensitive poet, is invited to make one of a country house party. He accepts because Lady Gwendolen Winston, with whom he is desperately in love, will be present; but he is so worked upon by the contrast between his youth, poverty and awkwardness of the other guests, that after quarreling with the Earl of Winston, Gwendolen's brother, and Donald Flint, her fiancé, he locks the door of his bedroom and flees through the window back to his attic room.

NOW GO ON WITH THE STORY

CHAPTER 7

Highly pleased with himself, it was only when Robin began to undress that he felt the pain where his shin had been grazed by slipping down the four steps. He examined it, and found that the wound was worse than he had supposed, and that his sock stuck to his ankle because of the congealed blood. Not without some agony, he managed slowly to part the garment from the bruised skin. He was also astonished to find some slight bruises on his left wrist. That, doubtless, must have happened when he got out of the window.

It was a continuous smarting pain, and it did not cease even after Robin got into bed. It struck him strange that he should not have felt the pain until now, and this fact recalled to him the whole extraordinary adventure that befell him that evening, culminating in the final coup which would cause him to be remembered for many a day to come. Ah, yes, they would remember him, not to be sure, because he was a poet, but because, like Byron, he had dared to be a man! What would Lord Winston think and say of him now? God, how he would have loved to have snatched his monocle from his hand and smacked his forehead. He was too excited to sleep. Mentally he followed his journey from the moment he leaped from the window of the bedroom until he got to the railway station and caught his train. A leap in the dark, if there ever was one! He wasn't even sure that there would be a train at that hour of the night, and in such an out-of-the-way place. But there the train was not more than five moments after he had got there, provided, as it were, by a miracle. And Robin Smith was exultant and felt that Providence was with him and approved of his conduct, even if certain swanky members of the social community did not.

But what qualms, in spite of his mood of bravado, he had suffered before he heard the welcome whistle of the train, and saw the throbbing glow of the fires of the approaching engine! He trudged the three long miles with his bag, the air heavy with thunder, the lightning flashing—now seeming near, now distant, then near again, repeatedly blinding him and leaving him in utter darkness. A few drops of rain came down, possibly forerunners of a deluge. How often he came near repeating his rash action, only to harden his heart with resolution. He knew he must go through with it now at all costs. He had the horrible fear of these being no train, and of Lady Dorothy's organizing parties to search for him. And what a humiliation it would be if he were found and brought back to Aiston Manor! He could face anything but that. Not for the world would he have that happen. And this thought strengthened him, and gave him fortitude. Perspiring from head to foot, feeling physically like a rag, he dropped limply into his seat in the train, with the delicious feeling of having accomplished an action truly heroic. He, Robin Smith, poet, was proud of himself. "And when they find out! Won't they be surprised, though!" At the very thought of it he burst into chorches of mirth, repressing them only sufficiently not to wake a fellow lodger on the other side of the wall. Above all, one thought consoled him, the thought that he had outwitted them all, and that they shouldn't be able to laugh at him any more. It was they who had been made ridiculous, not he. And Lady Gwendolen—Gwen as he liked to think of her—would respect and admire him for his coup. She couldn't help it. Not if he knew anything about women.

He put his hand up and turned out the light. A vision rose before him of the beautiful girl, lovely among the roses he had seen that day, and with this enchanting vision still before him, he fell into a deep, untroubled sleep.

After her short colloquy with Robin, Lady Dorothy resumed her seat in the deep, carved oak chair. She smoothed the rich satin folds of her lavender dress and, letting her hands drop limply into her lap, lay back relaxed to listen to the passionate haunting melody of the Kreutzer Sonata. Despite the fact that she was nearly fifty, Lady Dorothy was an extremely handsome woman, in the sense that a young woman is handsome. The wrinkleless youth of her carefully done face belied the salt and pepper of her hair, which she scorned to dye. The gray streaks set off the deep brown of her fine eyes, and gave her an added charm. Miss Haddon and Prince Pozolevsky had finished the first piece and commenced another when Lady Dorothy noticed that Lady Gwendolen was moving restlessly about the room, peering from the windows into the encircling darkness. Finally, with a word of excuse to her hostess, she left him and joined her.

"I'm worried about Edward," she announced in a strained voice. "It's so unlike him to go off in such a storm. I'm frightened."

She looked frightened. The color had all left her face, whose pallor was accentuated by the gleaming blackness of her close-cropped hair. She looked very young and very boyish.

"There's nothing to worry about, child," Lady Dorothy patted her hand absently. She, for her part, was wondering what had become of the poet. The musicians would soon need to rest, and she wanted her next entertainment ready.

Bruce Armstrong now joined the two women. He bent towards Lady Dorothy, and said in a whisper: "I don't like it."

She looked at the big, bearded man in amazement.

"Why, I think it's lovely. It's 'Molly on the Shore,' isn't it? I like something lively."

"I wasn't referring to the music dear Lady."

"What do you mean?" It was Lady Gwendolen who asked the question in a quer, husky voice. Lady Dorothy sat suddenly straight up in her chair.

"You don't mean that you, a hardened explorer, are worried about Edward, too?" she taunted him.

He bowed his head in silent acknowledgment.

me search about, and the rest of you wait here."

A burst of lively protests met this suggestion, but a blinding flash of lightning, followed by a prolonged roll of thunder, which shook the very foundations of the old house, showed them the sense of it more plainly than argument.

AGED WOMAN DIES

MARYSVILLE, O., Oct. 8.—Mrs. Susanna Purvey, 90, a native of Belmont County, died at her home in Thompson Township near here late yesterday from infirmities. She was the widow of Dexter Purvey, farmer.

BRINGING UP FATHER

WELL, I'VE CHANGED THE TICKETS AGAIN TO PLEASE MAGGIE. WELL, SAIL ON THE STEAMSHIP CANOPENER.

I THINK DADDY YOU HAD BETTER GO IN AND SEE MOTHER. SOMETHING IS WRONG. SHE IS CRYING.

BY GOLLY, I THOUGHT THAT WASN'T TAKIN' LESSONS IN FRENCH.

BUT MAGGIE, THE CANOPENER IS ONE OF THE FINEST BOATS AFLOAT.

I CAN'T HELP IT. I'LL NOT GO ON IT. MRS. KILLJOY TOLD ME THEY WON'T ALLOW DOGS IN THE STATEROOMS AND I WON'T GO WITHOUT "OOKUMS."

BY GOLLY, I'LL GO BACK AN' GIT THE DOG TOO BEFORE I JUMP.

IT WAS LOCKED A RAPID-FIRE MYSTERY STORY BY JOHN HAWK RELEASED BY CENTRAL PRESS ASSN., INC.

READ THIS FIRST:

Robin Smith, a young and rising but extremely sensitive poet, is invited to make one of a country house party. He accepts because Lady Gwendolen Winston, with whom he is desperately in love, will be present; but he is so worked upon by the contrast between his youth, poverty and awkwardness, and the polished, blasé manners of the other guests, that after quarreling with the Earl of Winston, Gwendolen's brother, and Donald Flint, her fiancé, he locks the door of his bedroom and flees through the window back to his attic room.

NOW GO ON WITH THE STORY

CHAPTER 7

Highly pleased with himself, it was only when Robin began to undress that he felt the pain where his shin had been grazed in slipping down the four steps. He examined it, and found that the wound was worse than he had supposed, and that his sock stuck to his ankle because of the congealed blood. Not without some agony, he managed slowly to part the garment from the bruised skin. He was also astonished to find some slight bruises on his left wrist. That, doubtless, must have happened when he got out of the window.

It was a continuous smarting pain, and it did not cease even after Robin got into bed. It struck him strange that he should not have felt the pain until now, and this fact recalled to him the whole extraordinary adventure that befell him that evening, culminating in the final coup which would cause him to be remembered for many a day to come. Ah, yes, they would remember him, not to be sure, because he was a poet, but because, like Byron, he had dared to be a man! What would Lord Winston think and say of him now? God, how he would have loved to have snatched his monocle from his hand and smacked his face!

He was too excited to sleep. Mentally he followed his journey from the moment he leaped from the window of the bedroom until he got to the railway station and caught his train. A leap in the dark, if there ever was one! He wasn't even sure that there would be a train at that hour of the night, and in such an out-of-the-way place. But there the train was, not more than five minutes after he had got there, provided, as it were, by a miracle. And Robin Smith was exultant and felt that Providence was with him and approved of his conduct, even if certain swanky members of the social community did not.

But what qualms, in spite of his mood of bravado, he had suffered before he heard the welcome whistle of the train, and saw the throbbing glow of the fires of the approaching engine! He trudged the three long miles with his bag, the air heavy with thunder, the lightning flashing—now seeming near, now distant, then near again, repeatedly blinding him and leaving him in utter darkness. A few drops of rain came down, possibly fore-runners of a deluge. How often he came near repeating his rash action, only to harden his heart with resolution. He knew he must go through with it now at all costs. He had the horrible fear of there being no train, and of Lady Dorothy organizing parties to search for him. And what a humiliation it would be if he were found and brought back to Alston Manor! He could face anything but that. Not for the world would he have that happen. And this thought strengthened him, and gave him fortitude.

Perspiring from head to foot, feeling physically like a rag, he dropped limply into his seat in the train, with the delicious feeling of having accomplished an action truly heroic. He, Robin Smith, poet, was proud of himself.

"And when they find out! Won't they be surprised, though!" At the very thought of it he burst into chortles of mirth, repressing them only sufficiently not to wake a fellow traveler on the other side of the wall. Above all, one thought consoled him, the thought that he had outwitted them all, and that they shouldn't be able to laugh at him any more. It was they who had been made ridiculous, not he. And Lady Gwendolen—Gwen as he liked to think of her—would respect and admire him for his coup. She couldn't help it. Not if he knew anything about women.

He put his hand up and turned out the light. A vision rose before him of the beautiful girl, lovely among the roses he had seen that day, and with this enchanting

"I'm worried about Edward."

vision still before him, he fell into a deep, untroubled sleep.

After her short colloquy with Robin, Lady Dorothy resumed her seat in the deep, carved oak chair. She smoothed the rich satin folds of her lavender dress and, letting her hands drop limply into her lap, lay back relaxed to listen to the passionate haunting melody of the Kreutzer Sonata. Despite the fact that she was nearly fifty, Lady Dorothy was an extremely handsome woman, in the sense that a young woman is handsome. The wrinkles of her face carefully done face belied the salt and pepper of her hair, which she scorned to dye. The gray streaks set off the deep brown of her fine eyes, and gave her an added charm.

Miss Haddon and Prince Pozolevsky had finished the first piece and commenced another when Lady Dorothy noticed that Lady Gwendolen was moving restlessly about the room, peering from the windows into the encircling darkness. Finally, with a word of excuse to Mr. Flint, she left him and joined her hostess.

"I'm worried about Edward," she announced in a strained voice. "It's so unlike him to go off in such a storm. I'm frightened."

She looked frightened. The color had all left her face, whose pallor was accentuated by the gleaming blackness of her close-cropped hair. She looked very young and very boyish.

"There's nothing to worry about, child," Lady Dorothy patted her hand absently. She, for her part, was wondering what had become of the poet. The musicians would soon need to rest, and she wanted her next entertainment ready.

Bruce Armstrong now joined the two women. He bent towards Lady Dorothy, and said in a whisper: "I don't like it."

She looked at the big, bearded man in amazement. "Why, I think it's lovely. It's 'Molly on the Shore,' isn't it? I like something lively."

"I wasn't referring to the music dear Lady."

"What do you mean?" It was Lady Gwendolen who asked the question in a queer, husky voice. Lady Dorothy sat suddenly straight up in her chair.

"You don't mean that you, a hardened explorer, are worried about Edward, too?" she taunted him.

He bowed his head in silent acknowledgment.

"Not worried, perhaps; but I don't like it."

"Where's the poet?" broke in another voice. It was Sir George Opie, with Andrew on his arm, who had joined the growing circle.

"I saw him go out about half an hour ago," offered Andrew, "and he's not come back."

"I sent him to get his poems," explained Lady Dorothy, easily. "Probably he and Edward are chatting in the billiard room. I put Mr. Smith in the little room on the left wing landing."

"Whatever did you do that for?" exclaimed Lady Gwendolen, aghast. "He'll hate it! Probably he's angry, and gone to bed."

"Oh, he wouldn't do that," Andrew came immediately to his defense. "He's much too well behaved."

"You don't know him!" "Why, Gwen, I knew him ages before you ever heard of him!" Andrew's gold-flecked eyes gleamed. She was vexed.

"Suppose you young ladies stop quarreling," Bruce Armstrong smiled from one to the other, "while I go and find the two missing men."

"Let me come with you!" begged Lady Gwendolen.

"And me," added Lady Dorothy, now somewhat alarmed.

Mr. Flint had by this time joined the group, and he interpolated here: "I'll go to look after Lady Gwendolen." He spoke with an air of possession that sent a thrill through Lady Dorothy. It looked as if her hopes were to be realized.

"Let's all go," suggested Muriel Haddon, who, with the Russian Prince, had stopped playing to learn the cause of the excitement.

"I don't know where, but I'm game!" She smiled at the rest.

"Heaven forbid that we go out!" exclaimed Prince Pozolevsky, who was on constant guard against the English passion for fresh air.

"We were only thinking of going to the billiard room to retrieve our lost guests," Bruce Armstrong assured him. "Mr. Smith has promised to read for us, but he's nowhere to be found."

"And Edward—" Lady Gwen's voice faltered.

"Your brother, if I may say so, is entirely able to look after himself," said the Russian curtly.

"I think it's ridiculous for us all to hunt around this dark house," Sir George Opie's gruff voice announced. "Let Mr. Armstrong and

me search about, and the rest of you wait here."

A burst of lively protests met this suggestion, but a blinding flash of lightning, followed by a prolonged roll of thunder, which shook the very foundations of the old house, showed them the sense of it more plainly than argument. (TO BE CONTINUED)

The Theater

Discussing the trials of producing a talkie musical, Irving Berlin reveals that he has written twenty songs for "Reaching for the Moon" and has discarded all but four. The composer is cheerful, however, about the decline in the number of musicals.

"It brings much greater royalties for hit numbers," he explains. "When every company was producing musicals, the public was so glutted with tunes that a number which ordinarily might sell 40,000 copies dropped down to about 7,000."

"With fewer tunes the public buys more of each. 'Little White Lies' for instance, has sold 450,000 copies in eight weeks."

Berlin declares that a song properly introduced and sung all the way through a picture, can be a tremendous success. On the other hand, those which are introduced haphazardly gain little from picture use.

The current Berlin picture will bring Douglas Fairbanks to the screen in a musical, Edmund Goulding, whose touch is one of the surest in the film colony, directs.

GWEN LEE

Gwen Lee finished a five-year contract Thursday and thereupon will join the free-lance ranks. Her final role at M-G-M was in "Inspiration" the new Garbo film. Gwen was swell with Jack Oakie in "Fast Company."

Incidentally Marjorie Rambeau has a part in "Inspiration" and Hollywood is pulling for her to stage a comeback. She is said to have given a fine performance in Pathe's "Her man." In "Inspiration" she should benefit from the direction of Clarence Brown, the director who inspired Marie Dressler to interpret an immortal character in Anna Christie, also with Garbo.

The son of the immortal John L. Sullivan is now to be head of a Hollywood dancing school. Make your own comments.
